Kids' open-ear wireless headphones
Open-ear wireless headphones Bone-conduction, App-based parental controls, IPX5 water protection

TAK4607GR/00

Highlights

Comfortable, open-ear design

Kids are always on the move! The ear cups of these lightweight headphones rest just in front of your child's ears so that whether they're gaming, doing an online lesson or listening to tunes, the headphones will remain secure and comfortable.

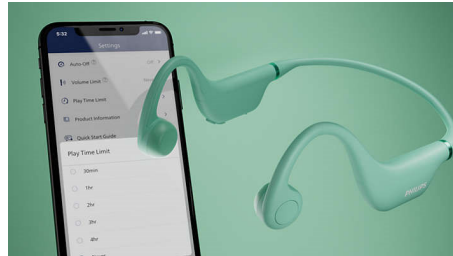

Open-ear design

These headphones use bone-conducting technology to let your kids hear their music,

lessons or games. This allows the earphone cups to rest in front of the ears - making sure that your child will be able to hear everything going on around them.

Parental controls

Easily limit both volume and playtime via the Philips App. The headphones' decibel level is limited to 85 dB but can be set lower for more sensitive ears. Set playtime by day or week, and a voice prompt will remind kids when time's up!

5 hours of play time

These great headphones hold 5 hours of playtime. With their lightweight, comfortable design, your kids will be able to spend their playtime happily listening to their favourite music or taking your calls!

Internal mic

The headphones feature an internal microphone that cuts out background ambient noise so whether your kids are gaming, in an online lesson or on the phone to you - their voice will always be crystal clear!

IPX5 water protection

An IPX5 water protection rating lets you get outside and play in any weather! The headphones are splash resistant and won't mind a little rain or sweat so you don't need to worry!

Adjustable headband

The headphones' headband is both flexible and adjustable. This means that the headphones will comfortably fit your child's head as they grow up! From the ages of 4-12 they will be the perfect way for your kids to listen, learn and play!

Specifications

Sound

- Frequency range: 150 - 16,000 Hz
- Speaker diameter: 13.2 mm
- Impedance: 12 Ohm
- Maximum power input: 200 mW
- Sensitivity: 83 dB (1k Hz)
