Specifications

Marketing specifications
- Product highlight: Automotive Grade LED Powerful brightness Uniform light distribution
- Expected benefits: Brighter, elegant signals

Product description
- Application: Interior lights, front parking/position lights, license plate, 3rd stop light, side indicators
- Base: W21 x 9.5d
- Designation: W5W LED White 11961 XU70 12V X2
- Designation LED Type: LED-T10 [≈W5W]
- Homologation ECE: NO
- Range: Ultinon Pro7000
- Technology: LED
- Type: W5W
- Voltage: 12 V

Lifetime
- Life time: 5000 hrs

Light characteristics
- Lumens: 55
- Color temperature: 8000 K

Electrical characteristics
- Voltage: 12 V
- Wattage: 0.62 W

Packaging Data
- EAN1: 8719018022974
- EAN3: 8719018022981
- Packaging type: X2

Packed product information
- Length: 7,0 cm
- Width: 2,5 cm
- Height: 11,5 cm
- Pack Quantity: 2 pcs
- MOQ (for professionals): 10 packs
- Gross weight per piece [g]: 24 g

Outerpack information
- Length: 19,5 cm
- Width: 15,5 cm
- Height: 8,5 cm
- Gross weight [kg]: 0,30 kg

Highlights

Powerful brightness
Signaling the intended movement of your vehicle is vital to your safety. To avoid collisions, other people have to know what youre doing. And when poor weather reduces visibility, the need for bright and vibrant signaling becomes even greater. Philips Ultinon Pro7000 LED signaling lights provide you with a bright, cool-blue effect plus up to 8000 K for positioning and interior lighting. Your car says a lot about you, so make a style statement with Philips LED signaling lights.

Uniform light distribution
Whether it's for parking lights, glove compartments or interior lighting, the Philips Ultinon Pro7000 LED gives you uniform light distribution. Its wide angle ensures that the light is projected where you need it.

Elegant LED light
While the main goal of exterior lighting is to help you see and be seen, theres no reason why you shouldnt look good at the same time. If you want to upgrade your style without buying a newer car, replacing your exterior lighting with Philips Ultinon Pro7000 LED signals is a smart way to spend your money.

Lifetime of up to 5,000 hours
You want bright, stylish car lights but you dont want to keep replacing failed lamps. That's a major weakness of conventional bulbs - the more powerful the light, the shorter its lifespan. Even at a higher light intensity, LEDs last much longer. Philips Ultinon Pro7000 LED lights are built to last. Due to features such as high-end LED technology and advanced heat-management systems, they last for up to 5,000 hours of operation and are covered by a 3-year warranty*.

Good at handling heat
With HeatShield technology, Philips Ultinon Pro7000 T10 bulbs are resistant to high temperatures even when installed next to headlight bulbs. Made with a special composite material, they can endure any thermal challenge and still offer high performance.

Ready, steady, installed!
Enjoy the plug-and-play experience: the Philips Ultinon Pro7000 comes with standard caps and is polarity-free, so replacement is quick and easy.

Electrical compatibility with most vehicles
LED retrofit and conventional bulbs differ from one another in terms of wattage, composition and power consumption. Replacing your conventional bulbs with other LEDs may prove problematic. Philips Ultinon Pro7000 bulbs are electrically compatible with most cars. Additional adapters are available as accessories for troubleshooting if needed. We sell a complete solution.
