- 2-Way Bass Reflex Speaker System for powerful sound
- 120W RMS total output power

Continuous enjoyment of your favorite music

- 10 hours of MP3-CD music
- AM/ FM tuner for radio enjoyment
- Stereo cassette deck
- USB Direct for MP3/WMA music playback
- MP3 player-in for your portable music device

Personalized sound settings

- Dynamic Bass Boost for deep and dramatic sound
- Digital Sound Control for optimized music style settings

PHILIPS

Highlights

2-Way Bass Reflex System

2-Way Bass Reflex Speaker System for powerful sound

10 hours of MP3-CD music

MP3 stands for "MPEG 1 Audio layer-3".MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. MP3 has become the standard audio compression format used on the world wide web, allowing quick and easy audio file transfer.

AM/ FM tuner

AM/ FM tuner for radio enjoyment

Stereo cassette deck

Stereo cassette deck

Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Digital Sound Control

Digital Sound Control offers you a choice of pre-set Jazz, Rock, Pop and Classic controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your

music by precisely adjusting the sound balance to match the type of music you are playing.

120W RMS

This system has 120W RMS total output power. RMS refers to Root Mean Square which is a typical measurement of audio power, or rather, the electrical power transferred from an audio amplifier to a loudspeaker, which is measured in watts. The amount of electrical power delivered to the loudspeaker and its sensitivity determines the sound power that is generated. The higher the wattage, the better the sound power emitted by the speaker.

USB Direct

With the USB Direct mode, simply plug in your USB device to the USB port on your Philips device and your digital music will be played directly from the Philips device.

Specifications

Sound

- Output power (RMS): 4x30W/ch
- Sound Enhancement: Dynamic Bass Boost, Digital Sound Control

Loudspeakers

- Main Speaker: 4" woofer, 2" tweeter, 2 way, Bass Reflex Speaker System
- Number of Loudspeakers: 2
