## Superb sound quality for iPod and DAB

wOOx technology for powerful bass

Free your iPod music in superb sound with the Philips Docking entertainment system DCB310. The interference-free DAB radio feature brings you crystal clear sound quality, and dramatically enhanced bass thanks to wOOx technology.

### **Rich and clear sound experience**

- Play and charge your iPod
- Crystal-clear interference-free DAB radio
- wOOx loudspeaker technology for deep and powerful bass

### **Start the day your way**

- Wake up to your favourite iPod music
- Dual alarm time
- Gentle wake with increasing alarm volume

### **Easy to use**

- DAB and FM preset stations
- Convenient line-in jack for portable music playback
- Sleep timer helps you to drop off to your favourite music

# PHILIPS

# Highlights

## Crystal-clear DAB radio

DAB (Digital Audio Broadcasting) digital radio is, in addition to FM analogue transmission, a new way of broadcasting radio via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in crystal clear, crackle-free sound quality. The technology allows the receiver to lock onto the strongest signal it can find. With DAB digital stations there are no frequencies to remember and sets are tuned by station name, so there is no returning on the move.

## wOOx™ Technology

wOOx technology is a revolutionary loudspeaker concept that allows you to hear and feel profoundly deep bass that is richer than any other audio system. Special speaker drivers work in harmony with the wOOx bass radiator, and precise tuning between the main driver and the tweeter ensures smooth transitions from low-mid to high frequencies. Dual suspension and a totally symmetrical sandwich construction deliver low and precise base without noticeable distortion. wOOx produces exceptionally deep and dynamic bass

by using the speaker box full volume to truly magnify the impact of the music.
