Quick Start Guide

*You may find in the box the line adaptor delivered separately from the line cable. **In this case, you have to connect the line adaptor to the line cord first before plugging the line cord to the line socket.**

In multihandset packs, you will find one or more additional handsets, chargers with power supply units and additional rechargeable batteries.

WARNING Always use the cables and batteries that came with your phone.
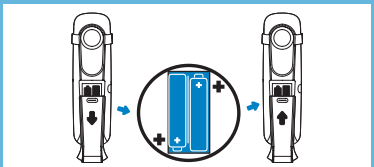

1 Connect
Connect the base station

1. Place the base station in a central location near the telephone line socket and electricity socket.
2. Place the base station face down so that you can see the bottom of the base station. Attach the base support to your base station by fitting the tabs of the base support into the corresponding slots on the base unit. Push into place until a click sound is heard.
3. Connect the line cord and the power cable to their corresponding connectors at the bottom of the base station as shown.
4. Connect the other end of the line cord to the telephone line socket and the other end of the power cable to the electricity socket.

2 Install
