- Gross weight per piece: 0,26 kg

Highlights

Powerful brightness

Select our bright-white Philips Ultinon Pro7000 LED lamps for superior visibility and style inside your truck. Bright and stylish, these lights will transform your driving experience. Whether you're searching for a dropped phone or you're trying to work out the best route to your destination, you can now enjoy bright interior light.

Uniform light distribution

Philips Ultinon Pro7000 LED interior lights provide a powerful, daylight effect of up to 6000 K, illuminating your truck's driving compartment with bright, uniform, stylish light.

Elegant LED light

If you're looking to improve both the lighting and style of your vehicles interior, opt for Philips Ultinon Pro7000 LED bulbs. Crisp, white light will help you sort through your glove box, find the phone or wallet that slipped under the seat or search for something in the trunk. Besides helping you see better, it also looks pretty elegant.

Lifetime of up to 5,000 hours

You want bright, stylish truck lights but you don't want to keep replacing failed lamps. That's a major weakness of conventional bulbs - the more powerful the light, the shorter its lifespan. Even at a higher light intensity, LEDs last much longer. Philips Ultinon Pro7000 LED lights are built to last. Due to features such as high-end LED technology and advanced heat-management systems, they last for up to 5,000 hours of operation and are covered by a 3-year warranty*.

Ready, steady, installed!

Enjoy the plug-and-play experience: the Philips Ultinon Pro7000 comes with standard caps and is polarity-free, so replacement is quick and easy.
