SB500M

Extreme loudness

The street-tough Philips ShoqBox SB500 Bluetooth portable speaker is the ultimate sound machine for party-starters who bring the beat wherever they go! High-powered extreme loudness meets explosive bass, while LED lights pulse to the beat.

Simple to use

- Audio input for easy connection to most devices
- Built-in microphone for hands-free calls
- Wireless music streaming via Bluetooth

Shockingly big beats

- Explosive bass from twin speaker drivers and bass radiators
- High power 30W speaker output
- SHOQ mode button for extreme loudness

Start the party anywhere

- Built-in rechargeable battery keeps on rocking
- Hit the lights! Multicolor LEDs pulse to the beat
- Outdoor toughness - rugged, shockproof, waterproof

PHILIPS

wireless portable speaker
Bluetooth® Waterproof, shockproof, Multi-colored lights

Highlights

Audio input

The Audio in connectivity allows direct playback of Audio in content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the audio system, the Audio in is also extremely convenient as all you have to do is to plug your portable MP3 player to the audio system.

Bluetooth wireless

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favorite music, sound from video or game wireless on this speaker easily.

Built-in rechargeable battery

Play music out loud - anytime, anywhere. The built-in rechargeable battery lets you enjoy your personal music without the fuss of entangled power cords and the inconvenient search for an electrical outlet. Enjoy great music with the freedom of portability now.

Explosive bass

All that explosive bass comes from the two front-firing speaker drivers and twin bass

radiators at each end. The two large high excursion drivers improve bass impact, maximum loudness and overall clarity, while the twin bass radiators give extra bass boost and depth.

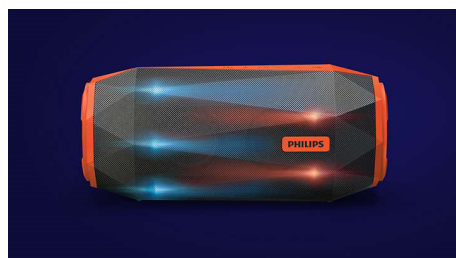

Hands-free calls

With its built-in microphone, this speaker also works as a speaker phone. When a call comes in, the music is put on pause and you can talk via the speaker. Whether you're calling home, or calling your friends from a party - either way, it works great.

High power

Built to bring big beats to the streets, the Philips ShoqBox SB500 pumps out huge sound from a portable Bluetooth speaker. Made with tough, high quality custom materials, ShoqBox delivers a ludicrously loud 30W total output power. With the integration of some next-level signal processing that monitor and adjusts the signal for the best sound at any volume, SB500 gives you enough dynamic, powerful, enormous sound to keep any street party rocking.

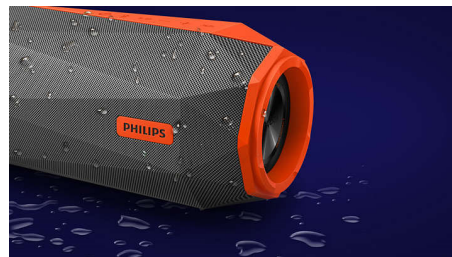

Multicolor LED lights

Step into the light and feel the power of pounding beats and blazing lights. Uniquely engineered multicolor LEDs pulse to the rhythm of the beat, bringing your music to life and adding another dimension to the party. Or if you'd rather dance in the dark, that's fine too - just flip a switch and it's lights out.

SB500M/00

Outdoor toughness

Waterproof, shockproof and party proof. The SB500 is built to survive. With an IPX7 rating, it can handle being held in water up to 1 meter deep for 30 minutes. So having it in the shower, or at the beach, is easy. The SB500 has also survived "torture chamber" testing, proving it can take a knocking and keep on rocking.

SHOQ mode

Get ready for the SHOQ...click, boom! With just a push of a button, you'll trigger the integrated SHOQ mode to instantly max the sound levels. Blow the roof off the party and feel the rush of extreme loudness! Cut through the neighborhood noise without any dirty distortion - SB500 gives you quality sound and high-impact bass at any volume.
