# Highlights

## Play slideshows, single photo

Play slideshows, single photos or thumbnails

## Photos from memory cards/DVDs

Store your favourite photos on CD or DVD disc, memory card or USB storage device and play them in a slideshow format on your Philips player. Thanks to the complete file transferability, you can easily enjoy the convenience and fun of showing digital photos.

Simply insert your disc, memory card or USB storage device into the player and your digital photos will be played directly on the device.

Now you can relive your favourite moments with family and friends anytime you want!

## MP3-CD, CD and CD-RW music

MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without

radically degrading their audio quality. A single CD can store up to 10 hours of music.

## Share picture CD (JPEG)

Multi-format playability allows you to view images on the go and play most disc formats for maximum disc compatibility and viewing pleasure.
