2. Introduction

2.1 Your portable DVD player

Your portable DVD player plays video discs conforming to the universal DVD video standard. With it, you will be able to enjoy full-length movies with true cinema picture quality, and stereo or multichannel sound (depending on the disc and on your playback setup).

The unique features of DVD-Video, such as selection of soundtrack and subtitle languages, and of different camera angles (depending on the disc), are all included.

What's more, parent lock lets you decide which discs your children will be able to see. You will find the player remarkably easy to use with the On-Screen Display and play display in combination with the remote control.

2.2 Unpacking

First check and identify the contents of your package, as listed below:

- Portable DVD player
- Remote Control (AY1507)
- Car adaptor (12V) (AY4115)
- AC power cord (AY4117)
- User manual
- Car headset mounting kit (AY4246)

2.3 Placement

- Place the player on a firm, flat surface.
- Keep away from domestic heating equipment and direct sunlight. If the player cannot read CDs / DVDs correctly, try using the commonly available cleaning CD/DVD to clean the lens before taking the player to be repaired. Other cleaning methods may destroy the lens.
- Always keep the disc door closed to avoid dust on the lens.
- The lens may cloud over when the player is suddenly moved from cold to warm surroundings. It is then not possible to play a CD/DVD. Leave the player in a warm environment until the moisture evaporates.

2.4 Playback disc formats

In addition to DVD-Video discs, you will also be able to play all Video CDs, CDs, CDR, CDRW, DVDR and DWRW.

2.4.1 DVD-Video

Depending on the material on the disc (i.e. movie, video clips, a drama series, etc.) these discs may have one or more Tracks, and tracks may have one or more Chapters. To make access easy and convenient, your player lets you move between tracks and between indexes.

2.4.2 Audio CD / MP3 CD / WMA CD

Audio CDs / MP3 CD / WMA CD contain music tracks which you can play them in the conventional way. Your player lets you move between tracks and between indexes. Titles and also between Chapters.

2.4.3 Video CD

Depending on the material on the disc (i.e. movie, video clips, a drama series, etc.) these discs may have one or more Tracks, and tracks may have one or more Chapters, as indicated on the disc case. To make access easy and convenient, your player lets you move between tracks and between indexes.

2.4.4 CD with JPEG files

You can also view JPEG file photos on this player.

2.4.5 DivX video discs

DivX is a popular media technology created by DivX, Inc. DivX media files contain highly compressed video with high visual quality that maintains a relatively small file size. DivX files can also include advanced media features like menus, subtitles, and alternate audio tracks. Many DivX media files are available for download online, and you can create your own using your personal content and easy-to-use tools from DivX.com.

2.5 Zero Bright Dot™

Enjoy high-quality images that are free from annoying blank spots. Philips' LCD screen LCD display combines low imperfections, termed as 'bright dots' by the LCD industry. A limited number of bright dots were once considered an inevitable side effect of LCD mass production. With Philips' strict quality control procedures used in our Portable DVD Players, our LCD displays are produced with zero tolerance for bright dots. Select Portable DVD Players come with Philips Zero Bright Dot™ Policy to guarantee optimal screen quality.

Warranty service varies from region to region. Contact your local Philips representative for more detailed information.

3. General information

Power Sources

This unit operates on a supplied AC adaptor, car adaptor, or a rechargeable battery pack.

- Make sure that the input voltage of the AC adaptor is in line with the device's rating. Otherwise, the AC adaptor and unit may be damaged.
- Do not touch the AC adaptor with wet hands to prevent electric shock.
- When connecting with car power (cigarette lighter) adaptor, be sure the input voltage of the adaptor is identical with car voltage. Applying the AC adaptor from the front of the battery will drain the battery pack when the unit is not used for long periods of time.
- Hold the plug to disconnect the AC adaptor. Do not pull the power cord.

Please always use supplied AC/DC adaptor (AY4129).

Safety and maintenance

- Do not disassemble the unit for laser rays are dangerous to eyes.
- Any service should be done by qualified service personnel. Unplug the AC adaptor to cut the power / liquid or object gets inside the unit.
- Take care not to drop the unit or subject it to strong shocks, which may cause malfunction.

Hearing Safety

Listen at a moderate volume.

Using headphones at a high volume can impair your hearing. This product can produce sounds in decibel ranges that may cause hearing loss for a normal person. For exposure less than a minute. The higher decibel ranges are offered for those that may have already experienced some hearing loss.

Sound can be deceiving. Over time hearing "comfort level" adapts to higher volumes of sound. So after prolonged listening, what sounds "normal" can actually be loud and harmful to your hearing. To guard against this, set your volume to a safe level before your hearing adapts and leave it there.

To establish a safe volume level:

- Set your volume control at a low setting.
- Slowly increase the sound until you can hear it comfortably and clearly, without distortion.
- Listen for reasonable periods of time:
- Prolonged exposure to sound, even at normally "safe" levels, can also cause hearing loss.
- Be sure to use your equipment reasonably and take appropriate breaks.

Be sure to observe the following guidelines when using your headphones:

- Listen at reasonable volumes for reasonable periods of time.
- Be careful not to adjust the volume as your hearing adapts. Do not turn up the volume so high that you can't hear what's around you.
- You should use caution or temporarily discontinue use in potentially hazardous situations such as:
- Driving a vehicle.
- Do not use headphones while operating a motorized vehicle, cycling, skateboarding, etc.; it may create a traffic hazard and is illegal in many areas.
- Important: (for models with by-passed headphones) Philips guarantees compliance with the maximum sound power of its audio players as determined by independent testing. Models with the original model of provided headphones, in case this one needs replacement, we recommend that you contact your retailer to order a model identical to that of the original provided by Philips.
- Traffic safety: do not use while driving or cycling as you may cause an accident.
- Do not expose to excessive heat caused by heating equipment or direct sunlight.
- This product is not waterproof; do not allow your player to be submerged in water. Water entering the player may cause major damage.
- Do not use any cleaning agents containing alcohol, ammonia, benzene, or abrasives as these may harm the player.
- Apparatus shall not be exposed to dripping or splashing. Do not place any sources of danger on the apparatus (e.g. liquid filled or dripping candles).
- Do not touch the lens.

When the player is in use for a long period of time, the surface will be heated. This is normal.

Handling discs

- Do not touch paper or tape to the disc.
- Keep the disc away from direct sunlight or heat sources.
- Store the disc in a disc case after playback.
- To clean, wipe the disc outwards from the center with a soft, lint-free clean cloth.

On handling the LCD screen

The LCD is a thin-film transistor (TFT) precision technology. You know, this tiny black point that continuously appear on the LCD. This is a normal result of the manufacturing process and does not indicate a malfunction.

Environmental information

We have reduced the packaging to its minimum and made it easy to separate into mono materials and of different camera angles (depending on the disc), are all included.

Your set consists of material which can be recycled if disassembled by a specialized company. Please observe the local regulations to separate your product, and observe the local regulations to separate your product, and observe the local regulations to separate your product.

Copright information

"DivX, DivX Certified, and associated logos are trademarks of DivX, Inc. and are used under license."

All other brand and product names are trademarks of their respective companies or organizations.

Unauthorized duplication of any recordings downloaded from the Internet or made from CDs / DVDs / VCDs is a violation of copyright laws and international treaties.

The Windows Media and the Windows logo are registered trademarks of Microsoft Corporation in the United States and/or other countries.

4. Charging the units

4.1 Charge the DVD player

Plug in the AC/DC adaptor

THE RED LED indicates

that charging is in progress.

When the set is not in use, it will take about 4 hours to fully charge. However, when in use, it will take more than 8 hours. The RED LED will turn off when the set is fully charged. When the low battery icon appears on the screen, please charge the player.

• Rechargeable batteries have a limited number of charge cycles and may eventually need to be replaced. Battery life and number of charge cycles vary by use and settings.

4.2 Powering your remote control

Open the battery compartment. Remove the battery cover. Insert 1 x lithium 3V battery, CR2025, then close the compartment.

CAUTION

- Batteries contain chemical substances, so they should be disposed of properly.
- Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.
- Incorrect use of batteries can cause electrolyte leakage and will corrode the compartment or cause the batteries to not work.
- Remove the batteries if the set is not to be used for a long time. Perchlorate Material-special handling may apply. See www.dvds.com/garhzardwaste/perchlorate
