Contemporary retro design

- Contemporary reinterpretation of the iconic Philetta design

PHILIPS

Original radio mini
Bluetooth® DAB+, FM, Dual alarm, Kitchen timer, 4W

ORT2300C/10

Highlights

Iconic Philetta design

Inspired by 1955 Original Radio - This original radio mini carries forward the iconic elements of the legendary 1955 Philips radio, also known as Philetta "BF 102 U". At the time this compact radio wowed its audiences with simplicity design, big sound and crystal clear reception. Philips radio heritage dates back to 1927. Over the decades many models have become renowned radio icons and collectors' items.

DAB+ and FM compatible

DAB+ and FM compatible for a complete radio experience

20 DAB & 20 FM preset stations

With 20 DAB and 20 FM preset stations, your favorite channels are always only the push of a few buttons away. To program a preset, simply tune into the desired station, then press and hold the preset button. This quick procedure allows the radio frequency to be automatically stored – for easy access whenever you like.

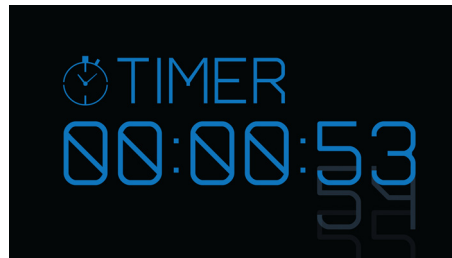

Auto time synchronization

With the automatic time setting function in your clock radio, you do not ever have to set the time. The clock synchronizes with radio signals automatically, even when it is switched off. It updates itself within one minute when there is an immediate need for adjustment, and makes routine synchronizations with radio signals to ensure it keeps accurate time always.

From the first time you take the clock radio out of the box, to the time a power outage occurs, you can depend on your Philips product to give you the right time, fuss-free and reliably.

Built-in countdown timer

This clock radio provides the best in convenience for everyday life. A built-in countdown timer helps keep an eye on what is being cooked, ensuring safety and well-prepared dishes. Now you can walk away from the stove or oven, and relax with a bit of TV, or do other chores around the home. Once the time is up, a buzzer will sound, reminding you that your meal is ready to be served.

Large backlit LCD display

Backlit LCD display ensures easy viewing and operation in low light conditions, and provides clear information at a glance.

Weekday/ weekend alarm

Designed with modern day lifestyles in mind, this clock radio has a dual alarm feature,

allowing you to set different alarm times for weekdays and weekends or even vary the alarm settings for couples. The alarm settings can be tailored for the same alarm times for the entire week from Monday to Sunday. Or you can set the alarm for an early start on weekdays from Monday to Friday, and lazy lie-ins for Saturday and Sundays. Whichever you choose, this convenient features saves you from the hassle of fiddling with different alarm times every single night.

Dual alarm

The Philips audio system comes with two alarm times. Set one alarm time to wake you up and the other time to wake up your partner.

Sleep Timer

Sleep timer lets you decide how long you want to listen to music or a radio station of your choice before falling asleep. Simply set a time limit (up to 2 hours) and choose a CD or radio station to listen to while you drift off to sleep. The set will continue to play for the selected duration and then automatically switch off to a power-efficient, silent stand-by mode. Sleep Timer lets you fall asleep to your favorite CD or radio DJ without counting sheep or worrying about wasting power.

Specifications
