Highlights

Richer sound

The crackle of laser-fire. The roar of a crowd. Two channels bring new levels of sound to your favorite movies and shows. The compact wireless subwoofer delivers satisfying bass. Explosions will rumble, and music sounds full.

Smart soundbar

With Google Assistant on board, you can ask this soundbar to get the latest news, find your favorite show, or even check what other movies that actor has been in! You can also ask the Google Assistant to control your Google Assistant-compatible smart home devices. Far-field mics ensure your queries will be heard from anywhere in the room.

Ready for your favorite tunes

Movie over? Time for a post-series-finale discussion? Once the on-screen drama has ended, you can switch the soundbar to Bluetooth mode and cue up a playlist. Or stream via Chromecast. Or play your tunes straight from the audio-in port. You'll enjoy the same richer sound, whatever you love to listen to.

Distinctive design

When it comes to placement, the included wall brackets keep your options open. The compact design of the powerful sub-woofer makes it easy to conceal.

Any source

Connect via HDMI, audio-in, USB, and more. HDMI-out (ARC) lets you control the soundbar with your TV remote.
