- Green flagship

Product highlights

250-name-and-number phonebook

No need to try learning the phone numbers of your friends and family. By assigning a name to a number, you only have to search for the name and the number automatically comes with it.

300-hours standby autonomy

Leave your handset off the base for more than 12 days without the need to recharge it. This contributes to make a very environment friendly device.

60-SMS memory

Keep traces of the messages you receive. Thanks to the large onboard storage capacity, you do not need to erase precious messages anymore.

Ringtone download

This function offers the possibility to personalise your phone by downloading ringtones. Simply call the dedicated service provider and select your favourite song. An SMS is sent to you, together with the attached melody. You can select this melody as you would any other ringtones (country and network dependent).

VIP function

Identify who's calling by the ringtone! The VIP icons and melodies indicate to which group in the phonebook the caller belongs. Phonebook entries can be divided into different VIP groups for which you can allocate a specific ringtone.

Personal SMS Boxes

With a personal SMS box, you are assured that nobody except you will read your messages. Your box is protected by a pin-code that you define.

Full graphic display

This type of displays makes it easier to use your phone, thanks to the good quality and legibility of the characters. It also gives you more freedom of communication from your home. Now you can combine text with images or numbers.

SMS with Predictive Text Input

The Predictive Text Input saves you time and hassle while typing an SMS text. An internal software guesses the word you want to write, based on the letters you have already typed in.

Hands free on handset

The hands free speaker phone lets you hold a conversation while you're busy doing something else. With both the speaker and the microphone in front of the handset, it is just like talking face to face with your correspondent.
