30 min answering machine 1.9" display/ amber backlight, Speakerphone

XL3951S/51

Highlights

Handset speakerphone

Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

Low power consumption: < 0.65 W

Philips phones are energy efficient and are designed to be respectful to the environment. Now the power consumed in stand-by mode is less than < 0.65 W.

Optimized antenna layout

Our optimized antenna layout ensures strong and stable reception – even in areas of the house where cordless transmission is difficult. Now you can take a call wherever you are in the house, and enjoy a long, uninterrupted conversation even as you walk around.

Up to 17 hours talk time

The phone can support up to 17 hours conversation on a single charge.

Up to 30 min. recording

With up to 30 minutes recording time, you'll never miss an important message.

ECO mode

60% reduction of radiation when ECO mode is activated

Easy setup

Ultimate convenience through easy set up.
Simplified installation - Plug & Play product
