Highlights

Remote with display screen

The Display Remote features a bright and easy-to-read screen so you can view and navigate your iPod content on the remote control, just like you would on your iPod!

Remote with RF technology

The remote control uses radio frequencies to transmit signals to the stereo, allowing you to control playback from the comfort of your sofa, and even from room to room.

Touch-panel controls

Control the device with the elegant, touch-sensitive display panel that appears only when in use, and then disappears for an attractive and intriguing experience.
