# Highlights

## Message-counter on Base

Just look at the base station to instantly know whether you have received any messages.

## TAM control from the base

Listening or deleting messages is as simple as pressing one key on the base station.

## 15-minute recording time

Records up to 15 minutes of incoming messages

## Crystal Clear Sound Quality

The use of digital communication virtually eliminates interference, buzzing and hissing. It improves the intelligibility of messages left on the answering machine and even making it possible for users to record and reproduce music.

## Handsfree on Handset

The handsfree speaker phone lets you hold a conversation while your hands are busy with something else and wherever you are. With both the speaker and the microphone in front of the handset, it is just like talking face to face with your correspondent.

## Polyphonic ringtones

A polyphonic ringtone means that the phone can play many tones simultaneously, so that an accurate musical performance is possible, and when played through the phone's speaker these polyphonic ringtones sound like real music.

## Name and number display

The alphanumeric display offers the possibility to display numbers as well as letters, and lets to assign a name to a number.

## Backlit LCD display

Backlit LCD display

## Ergonomic Design

The smooth rounded shaped handset fits perfectly in your hand for natural, balanced operation. It looks great too!
