Highlights

2.4" color TFT LCD screen

This oversized display screen makes it easy to compose pictures and offers easy access to the control menu.

5MP sensor

The number of megapixels determines the clarity of the image. 5 MP delivers a clean, sharp image with excellent picture detail.

8x digital zoom

Zoom in and out to get the perfect framing for any image. You control the zoom entirely via the onscreen interface while you're looking at the image so you can adjust it perfectly.

Easy control menu

Get exactly the shot you want with convenient access over all aspects of your imaging: resolution, exposure, flash and magnification.

Transfer images to your PC

User-friendly software allows you to easily upload your pictures to your PC. You can then print them, edit them and share them with others.

Records video with audio

Enjoy a live soundtrack that accompanies your video footage

SD expansion slot

Expand the camera's memory with picture storage disc cards.

Rechargeable battery

May be used over and over again to power the camera
