Highlights

Waterproof and ready to go

Poolside, lakeside, in the shower. This waterproof IPX7-rated speaker floats and can withstand being submerged in depths of up to 1 m for up to 30 minutes.

8 hrs play time. USB charging.

The battery gives you 8 hours play time from a full charge. Charging takes around 3 hours, and is easy via the included micro USB cable.

Control your music

Control the music from buttons on the side of the speaker. Press for play and double-press the volume up/down buttons to skip tracks. The speaker grille has LED lights that glow a steady blue, or flash random colors.

Crisp sound. Punchy bass.

The 1.5" full-range speaker delivers crisp, clear sound even when you play it loud. A passive radiator boosts the bass giving you that much more punch on the low-end tones.

Built-in mic

Power on the speaker and it's ready to pair with your Bluetooth device. The wireless range is 10 m and the built-in mic lets you take calls out loud. When a call comes in, the music pauses automatically.

Audio-in for easy connection

Want to connect to an external audio source like a turntable or MP3 player? The audio-in socket at the back of the speaker lets you connect to almost any electronic device.
