- MP3 Link for portable music playback
- Play CD, CD-R and CD-RW

### Easy to use

- CD Shuffle/Repeat for personalised music enjoyment

### Rich and clear sound

- Dynamic Bass Boost for deep and dramatic sound

# PHILIPS

# Highlights

## Dynamic Bass Boost

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

## CD Shuffle/Repeat

The "Shuffle/Repeat" function helps you to get rid of the boredom of hearing your music played in the same order all the time. After loading your favourite songs to the player, all you have to do is to select one of the modes - "Shuffle" or "Repeat" for your tunes to be played in different modes order. Enjoy the different and unique music experience every time you hook up to your player.

## FM/MW tuner

FM/MW (AM) stereo tuner

Issue date 2015-01-22

Version: 2.0.7

12 NC: 8670 000 63994  
EAN: 87 12581 54903 9

## MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

## Play CD, CD-R and CD-RW

Philips is known for making products which are compatible with many discs available in the market. This audio system lets you enjoy music from CD, CD-R and CD-RW. A single CD can store up to 10 hours of music. CD-RW (CD-Rewritable Compatible) means that your audio system can play both CD-Recordable (CD-R) and CD-Rewritable (CD-RW) discs. CD-R discs are recordable once and can be played on any audio CD player while CD-RW discs can be recorded and rewritten multiple times and can only be played back on compatible audio CD players.

# Specifications

## Audio playback

- Playback media: CD, CD-R, CD-RW
- Disc playback modes: fast forward/reverse, next/previous track search, repeat/shuffle/programme
