- Smart Car Mount for ease of use
- Travel bag included
- 2 sets of earphones included for personal enjoyment
- AC adapter, car adapter and AV cable included

PHILIPS
sense and simplicity

Highlights

7" TFT colour LCD display (16:9)

The colour LCD display brings images to life, showing off your treasured photos, favourite movies and music with the same 'real life' rich detail and vibrant colours as high quality prints. The 16:9 widescreen aspect ratio is standard for universal to high-definition digital television. A native 16:9 aspect ratio means video display without bars at the top and bottom of the picture and without the quality loss that comes from scaling, altering an image to fit on a different screen size.

DVD, DVD+/-RW, (S)VCD, CD

The Philips Portable DVD player is compatible with most DVD and CD discs available in the market. DVD, DVD+/-R, DVD+/-RW, (S)VCD and CD – all of them can play on the DVD player. DVD+/-R is a shorthand term for a

DVD drive that can accept both of the common recordable DVD formats. Likewise, DVD+/-RW handles both common rewritable disc types.

MP3-CD, CD and CD-RW playback

MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. A single CD can store up to 10 hours of music.

Smart Car Mount

To enjoy entertainment on the go, why not bring your portable DVD player from home on the road with you? A unique Car Mount system ensures ease-of-use, with a quick-release arm that facilitates easy removal of the player when not in use. You can bring the

portable DVD player with you, leaving just the Mount behind in the car.

Dual TFT LCD display screens

Dual screens allow you to display the same videos or images from the portable DVD player. Simply plug in and mount the screens on the headrests in your car. Now you can enjoy your favourite DVD movies and JPEG photos with family and friends in the back seats easily and comfortably.

DivX Certified

With DivX® support, you are able to enjoy DivX® encoded videos. The DivX media format is an MPEG4-based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW, and DVD recordable discs.

Specifications

Picture/Display

- Display screen type: LCD TFT
- Diagonal screen size (inch): 7 inch
- Brightness: 120 cd/m²
- Resolution: 480(W) x 234(H) x 3(RGB)
- LCD panel type: Anti-glare polariser
- Contrast ratio (typical): 200:1
