Safety and important notice

Read and understand all instructions before you use this Blu-ray disc/ DVD player. If damage is caused by failure to follow the instructions, the warranty does not apply.

Safety

Risk of electric shock or fire!

- Before you make or change any connections, make sure that all devices are disconnected from the power outlet.
- Never expose the product and accessories to rain or water. Never place liquid containers, such as vases, near the product. If liquids are spilt on or into the product, disconnect it from the power outlet immediately. Contact Philips Consumer Care to have the product checked before use.
- Never place the product and accessories near naked flames or other heat sources, including direct sunlight.
- Never insert objects into the ventilation slots or other openings on the product.
- Where the mains plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.
- Batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the like.
- Disconnect the product from the power outlet before lightning storms.
- When you disconnect the power cord, always pull the plug, never the cable.

Risk of short circuit or fire!

- For identification and supply ratings, see the type plate at the back or bottom of the product.
- Before you connect the product to the power outlet, ensure that the power voltage matches the value printed on the back or bottom of the product. Never connect the product to the power outlet if the voltage is different.

Risk of injury or damage to the product!

- Visible and invisible laser radiation when open. Avoid exposure to beam.
- Do not touch the disc optical lens inside the disc compartment.
- Never place the product or any objects on power cords or on other electrical equipment.

 If the product is transported in temperatures below 5°C, unpack the product and wait until its temperature matches room temperature before connecting it to the power outlet.

Risk of overheating!

 Never install this product in a confined space, Always leave a space of at least four inches around the product for ventilation. Make sure that curtains or other objects never cover the ventilation slots on the product.

Risk of contamination!

- Do not mix batteries (old and new or carbon and alkaline, etc.).
- Danger of explosion if batteries are incorrectly replaced. Replace only with the same or equivalent type.
- Remove batteries if they are exhausted or if the remote control is not to be used for a long time.
- Batteries contain chemical substances, they should be disposed of properly.

Risk of swallowing batteries!

- The product/remote control may contain a coin/button type battery, which can be swallowed. Keep the battery out of reach of children at all times! If swallowed, the battery can cause serious injury or death. Severe internal burns can occur within two hours of ingestion.
- If you suspect that a battery has been swallowed or placed inside any part of the body, seek immediate medical attention.
- When you change the batteries, always keep all new and used batteries out of reach of children. Ensure that the battery compartment is completely secure after you replace the battery.
- If the battery compartment cannot be completely secured, discontinue use of the product. Keep out of reach of children and contact the manufacturer.

This is CLASS II apparatus with double insulation, and no protective earth provided.

Care for your product

- Do not insert any objects other than discs into the disc compartment.
- Do not insert warped or cracked discs into the disc compartment.
- Remove discs from the disc compartment if you are not using the product for an extended period of time.
- Only use microfiber cloth to clean the product.

Care of the environment

Disposal of your old product

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

Do not throw away the product with the normal household waste at the end of its life, but hand it in at an official collection point or recycling. By doing this, you help to preserve the environment.

1 Use your Blu-ray disc / DVD player

Congratulations on your purchase, and welcome to Philips! To fully benefit from the support that Philips offers (e.g. product software upgrade), register your product at www.philips.com/welcome.

Basic play control

During play, press the following buttons to control.

Action
Turn on the player, or switch to standby.
Access the home menu.
Select a subtitle language.
Select an audio language or channel.
Access or exit the disc menu.
Access the main menu of a video disc.
Navigate the menus. Press $\blacktriangle \nabla$ to rotate a picture clockwise or counter-clockwise during slideshow.
Confirm a selection or entry.
Return to a previous display menu.
Access more options during play.
Stop play.
Start or resume play.
Pause play. Press repeatedly to slow forward frame by frame.
Open or close the disc compartment.
Skip to the previous or next track, chapter or file.
Fast backward or forward. Press repeatedly to change the search speed. Press ■ once, and then press ▶ to slow forward.
Select tasks or options for Blu-ray discs.

Video, audio and picture options

More options are available for video or picture play from a disc or USB storage device.

Video options

Access more options during video play.

- [Audio language]: Select an audio language.
- [Subtitle language]: Select a subtitle language.
- [Subtitle shift]: Change the subtitle position on the screen. Press ▲ ▼ to change the subtitle position.
- [Info]: Display play information.
- [Character set]: Select a character set that supports the DivX video subtitle (only for DivX videos).
- [Time search]: Skip to a specific time via the numeric buttons on the remote control.
- [2nd audio language]: Select the second audio language (only for Blu-ray discs that support BonusView).
- [2nd subtitle language]: Select the second subtitle language (only for Blu-ray discs that support BonusView).
- [Titles]: Select a title.
- [Chapters]: Select a chapter.
- [Angle list]: Select a camera angle.
- [Menus]: Display a disc menu.
- [PIP selection]: Display a picture-in-picture window (only for Blu-ray discs that support BonusView).
- [Zoom]: Zoom into a video picture. Press ◀ ▶ to select a zoom factor.
- [Repeat]: Repeat a chapter or title.
- [Repeat A-B]: Mark two points within a chapter for repeat play, or turn off repeat mode.
- [Picture settings]: Select a predefined color setting.

Note

Available video options depend on the video source.

Picture options

Access more options during slideshow.

- [Rotate +90]: Rotate a picture 90 degrees clockwise.
- [Rotate -90]: Rotate a picture 90 degrees counter-clockwise.
- [Zoom]: Zoom into a picture. Press ◀▶ to select a zoom factor.
- [Info]: Display picture information.
- [Duration per slide]: Set a display interval for a slideshow.
- [Slide animation]: Select a transition effect for a slideshow.
- [Picture settings]: Select a predefined color setting.
- [Repeat]: Repeat a selected folder.

Audio options

Press = repeatedly to cycle through the following options.

- Repeat the current track,
- Repeat all the tracks on the disc or folder.
- Play audio tracks in a random loop.
- Turn off a repeat mode.

DivX videos

You can play DivX videos from a disc or a USB storage device.

VOD code for DivX

 Before you purchase DivX videos and play them on this player, register this player on www.divx.com using the DivXVOD code. Display the DivX VOD code: press , and select [Setup] > [Advanced] > [DivX® VOD Code].

DivX subtitles

- Press SUBTITLE to select a language.
- If the subtitle is not displayed correctly, change the character set that supports the DivX subtitle. Select a character set: press := and select [Character set].

Character set	Languages
[Standard]	English, Albanian, Danish, Dutch, Finnish, French, Gaelic, German, Italian, Kurdish (Latin), Norwegian, Portuguese, Spanish, Swedish, and Turkish
[Central Europe]	Albanian, Croat, Czech, Dutch, English, German, Hungarian, Irish, Polish, Romanian, Slovak, Slovene, and Serbian
[Cyrillic]	Bulgarian, Belorussian, English, Macedonian, Moldavian, Russian, Serbian, and Ukrainian
[Greek]	Greek
[Baltic]	Estonian, Latvian and Lithuanian
[Chinese]	Simplified Chinese
[Chinese- Traditional]	Traditional Chinese
[Korean]	English and Korean

Note

- To use the subtitles, make sure that the subtitle file has the same name as the DivX video file name. For example, if the DivX video file is named "movie.avi", save the subtitle file as "movie.srt", or "movie.sub".
- This player can play subtitle files in the following formats: .srt, .sub, .txt, .ssa, and .smi.

Play a musical slideshow

Play music and pictures simultaneously to create a musical slideshow.

- 1 From a disc or connected USB storage device, play a music file.
- Press , and go to the picture folder.
- 3 Select a picture from the same disc or USB, and press **OK** to start slideshow.
- 4 Press to stop slideshow.
- 5 Press again to stop music play.
- 6 EN

BonusView on Blu-ray

View special content (such as commentaries) in a small screen window.

This feature is only applicable to Blu-ray discs compatible with BonusView (also known as picture in picture).

- 1 During play, press =
 - → The options menu is displayed.
- 2 Select [PIP selection] > [PIP], and press OK.
 - → PIP options [1]/[2] depend on the video contents.
 - → The secondary video window is displayed.
- 3 Select [2nd audio language] or [2nd subtitle language], and press OK.

Use Philips EasyLink

This player supports Philips EasyLink which uses the HDMI CEC (Consumer Electronics Control) protocol. You can use a single remote control to control EasyLink compliant devices that are connected through HDMI. Philips does not guarantee 100% interoperability with all HDMI CEC devices.

- 1 Connect the HDMI CEC compliant devices through HDMI, and turn on the HDMI CEC operations on the TV and other connected devices (see the user manual of the TV or other devices for details).
- 2 Press ft.
- 3 Select [Setup] > [EasyLink].
- 4 Select [On] under the options: [EasyLink], [One Touch Play] and [One Touch Standby].
 - → EasyLink function is turned on.

One Touch Play

When a video disc is in the disc compartment, press to wake up the TV from standby, and then play a disc.

One Touch Standby

When a connected device (for example TV) is put to standby with its own remote control, this player is put to standby automatically.

2 Change settings

This section helps you change the settings of this player.

Note

- · You cannot change a menu option that is grayed out.
- To return to the previous menu, press 3. To exit the menu, press 1.

Picture

- 1 Press
- 2 Select [Setup] > [Video] to access the video setup options.
- [TV display]: Select a picture display format to fit the TV screen.
- [HDMI video]: Select an HDMI video resolution.
- [HDMI Deep Color]: Display colors with more shades and hues when the video content is recorded in Deep Color and the TV supports this feature.
- [Picture settings]: Select a predefined color setting.

Note

· If you change a setting, make sure that the TV supports the new setting.

Sound

- 1 Press ♠.
- 2 Select [Setup] > [Audio] to access the audio setup options.
- [Night mode]: Select quiet or full dynamic sound. Night mode decreases the volume of loud sound and increases the volume of soft sound (such as speech).
- [HDMI audio]: Set an HDMI audio format when this player is connected through HDMI.
- [Digital audio]: Select an audio format for the sound output when this player is connected through a digital connector (coaxial).
- [PCM downsampling]: Set the sampling rate for PCM audio output when this
 player is connected through a digital connector (coaxial).

- For settings related to HDMI, the TV must be connected through HDMI.
- Night mode is only available for Dolby® TrueHD / Dolby® Digital Plus encoded DVD and Blu-ray discs.

Preference (languages, parental control...)

- 1 Press 🏚
- 2 Select [Setup] > [Preference] to access the preference setup options.
- [Menu language]: Select an onscreen display menu language.
- [Audio]: Select an audio language for video.
- [Subtitle]: Select a subtitle language for video.
- [Disc menu]: Select a menu language for a video disc.
- [Parental control]: Restrict access to discs that are encoded with ratings. Input "0000" to access the restriction options. To play all discs irrespective of the rating, select level "8".
- [Screen saver]: Enable or disable screen saver mode. If enabled, the screen enters idle mode after 10 minutes of inactivity (for example, in pause or stop mode).
- [Auto subtitle shift]: Enable or disable subtitle shift. If enabled, the subtitle position
 is changed automatically to fit the TV screen (this feature works with some Philips
 TVs only).
- [Change password]: Set or change a password to play a restricted disc. Input "0000" if you do not have a password or if you have forgotten your password.

- [Auto standby]: Enable or disable auto standby. If enabled, the player switches to standby after 30 minutes of inactivity (for example, in pause or stop mode).
- **[VCD PBC]**: Display or skip the content menu for VCD and SVCD.

- If your preferred language is not available for disc language, audio or subtitle, you can select [Others] from the menu options and input 4-digit language code which can be found at the back of this user manual.
- If you select a language which is not available on a disc, this player uses the default language of the disc.

Advanced options (clear memory...)

- 1 Press f.
- 2 Select [Setup] > [Advanced] to access the advanced setup options.
- [Downmix mode]: Control 2-channel stereo audio output.
- [Software update]: Select to update software from USB storage device.
- **[Version information]**: Display the software version of this player.
- [Restore default settings]: Reset this player to the default settings made at the factory, except for password and parental control level.
- [Clear memory]: Remove some Blu-ray disc data (such as BonusView) that
 are automatically copied on the connected USB device. A "BUDA" folder is
 automatically created to store some necessary data from Blu-ray disc.
- [DivX® VOD Code]: Display the DivX® registration code or the deregistration code for this player.

Note

 Before you purchase DivX videos and play them on this player, register this player on www.divx.com with the DivXVOD code.

3 Update software

Before you update the software of this player, check the current software version:

Update software via USB

- 1 Check the latest software version on www.philips.com/support.
 - Search for your model and click on "Software and drivers".
- 2 Download the software into a USB storage device.
 - Unzip the download, and make sure that the unzipped folder is named "UPG".
 - (2) Put the "UPG" folder in the root directory.
- 3 Connect the USB storage device to the USB connector on the back of this player.
- 4 Press ♠, and select [Setup].
- 5 Select [Advanced] > [Software update] > [USB].
 - → If an upgrade media is detected, you are prompted to start the update.
- **6** Follow the instructions on the TV screen to update the software.
 - → When the update is complete, this player automatically turns off and on again.

Caution

 Do not turn off the power or remove the USB storage device when the software update is in progress because you might damage this player.

4 Product specifications

Specifications and design are subject to change without notice.

Region code

This player can play discs with the following region codes.

DVD	Blu-ray	Countries
	0	Asia Pacific, Taiwan, Korea

Playable media

- BD-Video
- DVD-Video, DVD+R/+RW, DVD-R/-RW, DVD+R/-R DL (Dual Layer)
- VCD/SVCD
- Audio CD, CD-R/CD-RW, MP3 media, WMA media, IPEG files
- DivX (Ultra)/DivX Plus HD media, MKV media
- USB storage device

File formats

- Audio:
 - .aac, .mka, .mp3, .wma, .wav, .m4a, .flac, .ogg
- Video:
 - avi, .divx, .mp4, .m4v, .ts, .mov, .mkv, .m2ts, .mpg, .mpeg, .3gp
- Picture: .jpg, .jpeg, .gif, .png

Video

- Signal system: PAL / NTSC
- HDMI output: 480i/576i, 480p/576p, 720p, 1080i, 1080p, 1080p/24Hz

Audio

- HDMI output
 - Digital output: 0.5 Vp-p (75 ohm)
 - Coaxial

USB

- USB port: 5V ===, 500 mA
- Support software update and BonusView contents.
 - Compatibility: Hi-Speed USB (2.0)
 - Class support: USB Mass Storage Class
 - File system: FAT16, FAT32

Main unit

- Power supply rating: AC 110-240 V~, 50/60 Hz
- Power consumption: 10.5 W
- Power consumption in standby mode: < 0.5 W
- Dimensions (w x h x d): $270 \times 39 \times 193$ (mm)
- Net Weight: 1.03 kg

Accessories

- Remote control and batteries
- User manual
- HDMI cable

Laser

- Laser type (Diode): AlGalnN (BD), AlGalnP (DVD/CD)
- Wave length: 400 to 410 nm (BD), 650 to 664 nm (DVD), 780 to 800 nm (CD)
- Output power (max.): 1.33 mW (BD), 0.21 mW (DVD), 0.34 mW (CD)

5 Troubleshooting

Risk of electric shock. Never remove the casing of the player.

To keep the warranty valid, never try to repair the player yourself.

If you have problems using this player, check the following points before you request service. If you still have a problem, register your player and get support at www.philips.com/support.

If you contact Philips, you will be asked for the model and serial number of this player. The model number and serial number are on the back of this player. Write the numbers here:

Model No.		
Serial No		

Main unit

The buttons on this player do not work.

 Disconnect this player from the power supply for a few minutes, and then reconnect.

Picture

No picture.

Make sure that the TV is switched to the correct source input for this player.

No picture on HDMI connection.

- Make sure that the HDMI cable is not faulty. If it is faulty, replace with a new HDMI cable.
- On the remote control, press nand then press "731" (numeric buttons) to recover picture display. Or wait for 10 seconds for auto recovery.
- If this player is connected to an unauthorized display device with an HDMI cable, the audio and video signals may not be output.

The disc does not play high-definition video.

Make sure that the disc contains high-definition video.

Sound

No audio output from the TV.

Make sure that the TV is switched to the correct source input for this player.

No audio output from the loudspeakers of the external audio device (home theater or amplifier).

Switch the external audio device to the correct audio source input.

No sound on HDMI connection.

 You may not hear any sound from the HDMI output if the connected device is non-HDCP compliant or only DVI-compatible.

No secondary audio output for Picture-in-Picture feature.

 When [Bitstream] under the [HDMl audio] or [Digital audio] menu is selected, interactive sound like secondary sound for Picture-in-Picture feature is muted. De-select [Bitstream].

Play

Cannot play a disc.

- Clean the disc.
- Make sure that the disc is correctly loaded.
- Make sure that this player supports the disc. See "Specifications".
- Make sure that this player supports the region code of the DVD or BD.
- For DVD±RW or DVD±R, make sure that the disc is finalized.

Cannot play DivX video files.

- Make sure that the DivX video file is complete.
- Make sure that the video file name extension is correct.

DivX subtitles do not display correctly.

- Make sure that the subtitle file has the same name as the DivX video file.
- Make sure that the subtitle file has an extension name supported by this player (.srt, .sub, .txt, .ssa, or .smi).

Cannot read the contents of a connected USB storage.

- Make sure that the format of the USB storage device is compatible with this player.
- Make sure that the file system on the USB storage device is supported by this
 player.
- For a USB HDD (a portable hard disc drive), an external power source may be needed.

'No entry' or 'x' sign is displayed on the TV.

The operation is not possible.

EasyLink feature does not work.

Make sure that this player is connected to the Philips brand EasyLink TV, and the
EasyLink option is turned on (see "Use your Blu-ray disc/ DVD player" > "Use
Philips EasyLink").
