? Frequently asked questions

No signal bar is displayed on the screen.

- The handset is out of range. Move it closer to the base station.
- If the handset displays **[Unregistered]**, register your handset. (See the section on “Register additional handsets”).

If I fail to pair (register) the additional handsets to the base station, what do I do?

- Your base memory is full. Access **MENU** > **[Services]** > **[Unregister]** to unregister the unused handsets and try again.
- If registration fails, unplug the power adapter from the base station and plug it back. Wait for 15 seconds, and then repeat the registration procedure.

My handset is in searching or unavailable status, what do I do?

- Make sure that the base station has power supply.
- Move the handset closer to the base station.
- Register the handset to the base station.

I have chosen a wrong language which I cannot read, what do I do?

- 1 Press **OK** to go back to the standby screen.
- 2 Press **MENU** > **OK** to access the main menu screen.
- 3 The following options will appear on the screen:

[Phone setup] > [Language]
[Réglages] > [Langue]
[Telefon-Setup] > [Sprache]
[Config. telef.] > [Lingua]

- 4 Select them to access the language options.
- 5 Select your own language.

I have chosen a wrong country in Welcome screen, what do I do?

Reset your phone settings to the original factory settings (see the section on “Restore default settings”).

I cannot change the settings of my voice mail, what do I do?

The voice mail service is managed by your service provider but not the phone itself. Contact your service provider to change the settings.

The handset on the charger does not charge or the battery discharges too fast.

- Make sure the batteries are inserted correctly.
- Make sure the handset is placed properly on the charger. If the docking tone is turned on, you can hear the docking tone when you place the handset on the charging cradle.
- The charging contacts are dirty. Disconnect the power supply first and clean the contacts with a damp cloth.
- The battery is not fully recharged. Leave the handset on the charging cradle for at least 8 hours or until the battery icon on the handset stops scrolling and indicates full bar.
- The batteries are old or defective. Purchase and replace with new rechargeable batteries with the same specifications.

Bad audio (crackles, echo, etc.)

- The handset is nearly out of range. Move it closer to the base station.
- The phone receives interference from the nearby electrical appliances. Move the base station away from them.
- The phone is at a location with thick walls. Move the base away from them.
- The phone receives interference from the DSL (digital subscriber line) connection. Install a DSL filter to prevent the noise. Contact your service provider for the DSL filter.

The caller ID does not display.

- The service is not activated. Check with your service provider.
- The caller's information is withheld or unavailable.
