- Built-in WiFi to enjoy your connected media wirelessly
- Smart TV to enjoy online services & access multimedia on TV
- Full HD 3D Blu-ray for a truly immersive 3D movie experience

PHILIPS

Highlights

Premium soft dome tweeters

With Philips' Crystal Clear Sound, you will now be able to discern and appreciate every sound detail, the way it's meant to be heard and as the artist or director intended! Crystal Clear Sound reproduces the sound source - whether it's an action movie, a musical or a live performance - faithfully, precisely and without any distortion. Philips home theaters with Crystal Clear Sound keep audio processing to a minimum, preserving the purity of the original audio content. The result is greater sonic accuracy delivered to your ears.

Auto calibration

Adjusting your new Philips home theater for optimum sound experience is now a breeze. With the simple touch of a button on the remote, the intelligent pre-loaded sound calibrator software is launched and emits test signals to the speakers. These signals are captured and analyzed by the auto-calibration microphone and the necessary adjustments are made, taking into consideration the distances between speakers and listening positions, the loudness and the delay response of audio signals from each speaker. In 60 seconds, your in-room sound experience is enhanced and optimized.

HDMI Hub

HDMI Hub provides additional HDMI ports to allow you to connect other devices such as your game console or HD set-top box to your home theater conveniently. By connecting your devices through the HDMI Hub, you can enjoy high-definition sound and picture for all your entertainment.

Built-in WiFi

Thanks to built-in WiFi, by simply connecting your home theater directly to your home network, you can experience a rich selection of popular online services. You can enjoy some of the best websites offering movies, pictures, infotainment and other online contents tailored to fit your TV screen.

Full HD 3D Blu-ray

Be enthralled by 3D movies in your own living room on a Full HD 3D TV. Active 3D uses the latest generation of fast switching displays for real life depth and realism in full 1080x1920 HD resolution. By watching these images through special glasses with right and left

lenses that are timed to open and close in synchrony with alternating images, the full HD 3D viewing experience is created in your home cinema. Premium 3D movie releases on Blu-ray offer a wide, high quality selection of content. Blu-ray also delivers uncompressed surround sound for an unbelievably real audio experience.

Smart TV

Philips home theater systems with Smart TV offer you an array of enhanced features, including Net TV, DLNA and MyRemote. Net TV brings a wide range of online information and entertainment to your TV. Simply select Net TV in the Home Menu and to start browsing for services like, video-on-demand stores* for the latest releases in HD, and Catch-up TV. With DLNA, you can access photos, music and movies stored on your PC from the comfort of your couch. Can't find the remote control? Simply use your smart phone or tablet PC to control your home theater via the Philips MyRemote app.

Matches Cinema 21:9 Gold series TV*

Matches Cinema 21:9 Gold series TV
Indulge yourself in a world of entertainment with this
