- Included accessories: AC Power Cord, Battery, Charger, Headphone, Travel pouch, User Manual, Warranty certificate

Dimensions

- Packaging dimensions (W x H x D): 223 x 273 x 68 mm
- Product dimensions (W x H x D): 60 x 111 x 21 mm
- Weight: 0.1 kg
- Weight incl. Packaging: 0.47 kg

Power

- Adaptor type: 6V 300mA
- Battery type: AA, LR6
- Battery voltage: 1.5 V
- Number of batteries: 2

Highlights

Near CD-quality radio stations

Near CD-quality radio stations

DAB and FM compatible

DAB (Digital Audio Broadcasting) digital radio is, on top of FM analog transmission, a new way of broadcasting radio via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in clear, crackle-free sound quality. The technology allows the receiver to lock on to the strongest signal it can be find. With DAB digital stations there are no frequencies to remember, and sets are tuned by station name, so there is no returning on the move.

EQ presets for best listening

EQ presets for your best listening in DAB mode

Up to 10 hours** playtime

Enjoy playtime of up to 10 hours**

Built-in recharge capability

Use built-in circuit to charge rechargeable batteirs

Large backlit LCD display

Backlit LCD display ensures easy viewing and operation in low light conditions, and provides clear information at a glance.

Digital tuning with presets

Simply tune into the station that you want to preset, press and hold the preset button to memorize the frequency. With preset radio stations that can be stored, you can quickly access your favorite radio station without having to manually tune the frequencies each time.

Autostore programming

Autostore Programming is a convenient feature that allows you to tune in to your favorite stations and set station presets by simply pressing a button. Autostore Programming does away with the hassle of manual radio station tuning and setting of presets. A built-in electrical circuit automatically scans local radio station frequencies, locks on to the strongest radio station signals, and assigns them to specific presets.

Joystick control

Joystick control for easy navigation
