Enjoy your favorite radio

with one-touch access to preset stations

Enjoy your favorite DAB/FM stations with just a touch with Philips portable radio. Digital tuning and 3 one-touch presets makes this radio easy to use. The large backlit LCD display provides easy viewing even in low light.

Enjoy your favorite stations

- Digital tuning with preset stations for extra convenience
- Stereo headphone jack for better personal music enjoyment
- DAB and FM compatible for a complete radio experience
- Built-in speaker to enjoy radio out-loud in good sound

Easy to use

- Built-in clock function
- Mains or battery operated for flexible placement
- Large backlit LCD display for easy viewing in low light
- Low battery indicator keeping you informed of power level
- Direct preset keys for quick access to stored radio stations

PHILIPS

Highlights

Built-in clock

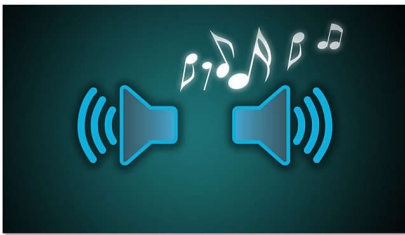

A built-in clock keeps time accurately. When the radio is off, the clock display comes on for added convenience.

Large backlit LCD display

Backlit LCD display ensures easy viewing and operation in low light conditions, and provides clear information at a glance.

Built-in speaker

A speaker offers good sound quality for more pleasure.

Digital tuning with presets

Digital tuning with preset stations for extra convenience

Stereo headphone jack

Connect your own headphones with this Philips device for a more personal listening experience whenever you want it. You can enjoy your favorite music in great sound without disturbing others by connecting your headphones to this device.

Low battery indicator

The low battery indicator lights up when the power is low.

Mains or battery operated

Power your Philips radio set with batteries or a direct mains supply, and enjoy great

convenience and flexibility. When a power socket is not available or when you don't want unsightly wires trailing, simply operate the set with batteries. When you need a continuous and stable power supply, connect the set directly to a wall socket. Now you can truly enjoy the freedom of listening wherever you like.

DAB and FM compatible

DAB (Digital Audio Broadcasting) digital radio is, on top of FM analog transmission, a new way of broadcasting radio via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in clear, crackle-free sound quality. The technology allows the receiver to lock on to the strongest signal it can be find. With DAB digital stations there are no frequencies to remember, and sets are tuned by station name, so there is no returning on the move.

Direct preset keys

Direct preset keys for quick access to stored radio stations
