Highlights

All your music

This sleek integrated micro system lets you stream playlists and more with rich, room-filling sound. Dust off the classics in your CD collection thanks to a CD player that also plays MP3 CDs and recorded CDs. The digital radio tuner delivers crystal-clear reception, and you can set up to 20 presets for your favourite DAB+ or FM stations.

Rich sound with full bass

The bookshelf-style loudspeakers give you crisp high ends from dome tweeters and powerful bass from 4" woofers and bass-reflex ports. The 70 W maximum output brings rich

sound to smaller spaces: perfect for apartments, offices and kitchens.

Old school, meet new school

The matte black central unit and speaker cabinets recall the design of hi-fi separates. The woofer and tweeter are revealed in gloss-black surrounds for a modern look. The textured volume-control dial adds a satisfying analogue feel to operation, and there are buttons on top of the unit for pairing, source selection, and playback/tuning control.

Digital Sound Control

Hip-hop or choral, symphony or rock opera? Whatever you love, this micro system's Digital Sound Control function lets you enjoy it more. Pick from preset sound styles designed to bring out the best in your music.

At home in your home

This AC-powered micro system looks great in any room. The Bluetooth wireless range is 10 m, and you can charge a smart device via the USB port when the system is in standby mode. An easy-to-use remote puts key system functions at your fingertips—so you can control the mood without breaking the mood.
