PHILIPS

Highlights

6.1 cm/ 2.4" TFT color display

High contrast, 6.1 cm / 2.4" TFT color display

All calls on one phone

All calls - mobile and landline - on one phone

Barr calls to selected numbers

Avoid expensive phone bill surprises by blocking calls to specific numbers, to numbers starting with certain digits, for example pay per call numbers, or to specific area codes

Clear mobile calls everywhere

Clear mobile calls even in weak reception areas

Easy phone book download

Easily download contacts from your mobile or PC phone book

HQ-Sound

Philips cordless phones with HQ-Sound: build upon decades of experience and breakthrough innovations in developing Hi-Fi audio products and high-end headphones to deliver excellent voice clarity on our DECT phones. When it comes to improving sound quality, our acoustics engineers and architects have thought of everything – high quality components, digital signal processing, precise acoustic design, advanced testing and fine-tuning. The result is sound that is crisp, clear and authentic. Sound so good and natural, it is almost like being there in person.

Large phonebook

Save up to 1200 contacts with 2200 numbers

Mobile phone charging

Charge your mobile phone while talking

MySound

Sound perception is subjective and everyone has their individual listening preference, therefore MySound provides you with three distinctly different profiles in your choice of sound to give you the ultimate listening experience: Clear - for making the voices very crisp and clear Soft - for a more friendly and soft voice Warm - for making the voice sound welcoming and warm.

Silence mode with filtering

Value your privacy and quiet at home? Easily disable the ringtones for specific "no call" times to enjoy piece and silence. An additional filtering function allows any number chosen from the phone book to still ring when calling, making sure that only "right" people can reach you.

Up to 60 min. recording

With up to 60 minutes recording time, you'll never miss an important message.
