Cordless phone with
answering machine

25-min answering machine
1.6" display/blue backlight

D1351B

Keep it simple

The Philips D135 Cordless Phone with built-in answering machine packs essential functions in a fresh and engaging design. Excellent sound reproduction and easy plug-and-play lets you enjoy every conversation with great clarity and ease.

Nice and simple

- Up to 25 minutes of messages on your answering machine
- Ultimate convenience through easy setup
- Textured back cover for non-slip grip
- Menu in multiple local languages
- Easy to read 1.6" (4.1 cm) display with backlight
- Up to 10 hours' talk time on a single charge
- Caller ID – so you always know who is calling*

Crystal clear sound

- The Parametric Equaliser delivers pure and clear sound
- Automatic Volume Control offsets unwanted volume variation
- Optimised antenna layout for great reception in any room
- Advanced sound testing and tuning for superb voice quality

Eco-conscious product

- Low radiation and power consumption

PHILIPS

Highlights

4.1-cm (1.6") display

Easy to read 1.6" (4.1 cm) display with backlight

Advanced sound testing

We test the sound quality of our DECT phones the same way as high-end headphone manufacturers do. Using an advanced ear simulator, we can accurately re-create the way people actually hear. This helps our acoustic engineers to measure and fine-tune things like frequency response, distortion and overall hearing perception, to create perfect voice reproduction.

Automatic Volume Control

Automatic Volume Control offsets variations in sound signal, which can be caused by distance, signal strength or the caller's phone — so what you hear always remains consistent. Reducing the audio amplification for strong signals, and increasing it for weak ones, means you can enjoy a smooth conversation without unwanted sound volume variation.

Caller ID*

Sometimes it's good to know who's calling before you answer. And our Caller ID lets you keep track of who's on the other end of the line.

Easy setup

Ultimate convenience through easy set up. Simplified installation - Plug and Play product

Eco-conscious product

Philips phones are energy efficient and designed to be respectful to the environment.

Menu in local languages

Enjoy easy setup, navigation and control with intuitive menu available in local languages.

Non-slip grip

The rear of the handset is treated with a special texture for added comfort and better grip.

Optimised antenna layout

Our optimised antenna layout ensures strong and stable reception, even in areas of the house where cordless transmission is difficult. Now you can take a call wherever you are in the house, and enjoy a long, uninterrupted conversation even as you walk around.

Parametric Equaliser

Our telephones use parametric equalisation in the digital sound processing to fine tune the sound response back to the intended linear frequency response curve, delivering sound that is pure and clear, for each conversation.

Up to 10 hours' talk time

Up to 10 hours' talk time on a single charge

Specifications

Convenience

- Menu structure in the handset: List Menu
- Signal strength indicator: 3-bar indicator
- Battery level indicator: 3-bar battery icon
