# Highlights

## Wireless streaming

With wireless streaming, you don't need to download and store large music files on our audio device. Instead, you can listen to favorite songs as they are continuously streamed to all the Music Stations - at the same time. Have your music follow you from room to room with Music Follows Me - no need to restart navigation and playback. Music Broadcast simultaneously broadcasts your desired music from the Center to all Stations. And with My Room, My Music, any family member can enjoy selected music from the stored collection in any room that is equipped with a Wireless Music Center or Station.

## Music Broadcast to Stations

Be your own DJ at your home party and simultaneously broadcast your favorite dance music from the Wireless Music Center to all

Wireless Music Stations installed in various parts of your home. Great for parties!

## Music Follows Me

Music follows Me feature allows you to bring your favorite music from room to room in your house without having to restart navigation and playback of that particular track. By simply pressing a button, your favorite song will follow you anywhere you go in your house.

## Enjoy Internet Radio

Internet radio is an audio broadcasting service that is transmitted via the Internet. One of the most popular formats is MP3. Some internet stations are affiliated with a 'terrestrial' radio station or network while others are internet-only radio stations, which are independent and devote their broadcasts only to the World Wide Web. With Internet Radio, you can

enjoy access to online radio stations from anywhere in the world and listen to a wide variety of genres; get news, sports and entertainment updates, or connect to favorite or niche stations from Austria to Yugoslavia.

## My Room, My Music

With My Room, My Music, each member of your family can select and play their favorite music from the stored collections in the Streamium Wireless music center. Multiple User Access technology simultaneously streams music selected from the Streamium center to the station. One Streamium can stream music to up to five Stations, giving you six different music options for the whole family to enjoy in any room - simultaneously and instantly.
