HTS8100

Raising the bar in home cinema

with Ambisound

Featuring Ambisound, the HTS8100 delivers full multi-channel surround sound in any sort of room. The 1-piece integrated system fits into the home with ease, providing a full home theatre experience with excellent sound and picture quality.

Bring audio to life

- DoubleBASS for an extended, deep bass experience
- Smart Surround optimises surround settings automatically
- Soft dome tweeters for pure sound and voice clarity
- Ambisound for surround sound from fewer speakers

Bring video to life

- HDMI 1080p upscales to high definition for sharper pictures
- Faroudja DCDi for incredibly sharp high-quality video

Connect and enjoy multiple sources

- USB Direct plays photos and music from USB flash drives
- MP3 Line-in for music playback from Portable Media Players

Fits any space, any lifestyle

- Sophisticated design that matches any flat TV
- Sound bar system in a stylish integrated single-unit design

PHILIPS

Highlights

Ambisound

Ambisound technology produces truly embracing multi-channel surround sound from fewer speakers. It delivers an immersive 5.1 sound experience without the constraints of sitting position, room shape or size, and without the clutter of multiple speakers and cables. Through the combined effect of psychoacoustic phenomena, array processing and precisely angled driver positioning, Ambisound delivers more sound from fewer speakers.

Sound bar system

Sound bar system in a stylish integrated single-unit design

HDMI 1080p

HDMI 1080p upscaling delivers images that are crystal clear. Movies in standard definition can now be enjoyed in true high definition resolution - ensuring more details and more true-to-life pictures. Progressive Scan (represented by "p" in "1080p") eliminates the line structure prevalent on TV screens, again ensuring relentlessly sharp images. To top it off, HDMI makes a direct digital connection that can carry uncompressed digital HD video as well as digital multi-channel audio, without conversions to analogue - delivering perfect picture and sound quality, completely free from noise.

Faroudja DCDi

Enjoy incredibly sharp, high-quality video on your progressive scan TV with Faroudja DCDi. The feature alleviates jagged edges that appear when standard interlaced video is viewed, especially with moving images, thus delivering natural-looking action scenes. Bring your viewing experience to the next level with clearer, smoother pictures

Smart Surround

Enjoy the best possible listening experience without having to make surround setting changes every time you change a disc or switch between movies and music. Unlike normal 5.1 systems that feature default multi-channel surround settings, Smart Surround automatically changes the surround settings to suit your music encoded in stereo or your movie with multi-channel content.

DoubleBASS

DoubleBASS ensures you hear even the deepest bass tones from compact-sized

subwoofers. It captures low frequencies and recreates them in the audible range of the subwoofer - delivering sound with more boom and panache, and ensuring you get a full, uncompromised listening experience.

Soft dome tweeters

Soft Dome Tweeters reproduce clear high and mid-range frequencies that enhance the overall clarity of sound from the speakers.

USB Direct

Simply plug your device into the USB port on your Philips DVD system. Your digital music and photos will be played directly from the device. Now you can share your favourite moments with family and friends.

Sophisticated design

Top-of-the-line technology wrapped in elegance and style, this home theatre system graces the front of any living room with tones of sophistication and class. Reflecting exactly the same design and finishing as the Philips flat TV, it also sits under any other flat TV like a companion - matching your flat TV, your interior and your lifestyle.

Specifications

Sound

- Sound Enhancement: Smart Surround, DoubleBass, Treble and Bass Control
- Sound System: Ambisound, Dolby Digital, DTS, Dolby Prologic II, Stereo
- Equalizer settings: Action, Rock, Concert, Classic, Drama, Jazz, MTV, RnB, Gaming, Party, Cartoon, Lounge, News, Sports
