Highlights

Smart Protection

Smart protection against overheating, overvoltage and overcurrent

Programmable Power Supply PPS

PPS (Programmable Power Supply) is a standard for fast charging technology for USB-C devices. This technology adjusts the voltage and current in real time, depending on a device's charging status, feeding it with maximum power. A smart way to safely reduce charging time.

USB-C port

USB-C is the latest charging connector that is now adopted by mobile devices such as mobile phones, outdoor cameras and tablets.
