Power

- Battery Playing time (Tuner): 34
- Battery Playing Time MP3-CD: 28
- Battery Playing Time CD: 18
- Battery type: AA, LR6, UM3

Highlights

Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.
