## Highlights

### Bluetooth-enabled

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to other Bluetooth devices, so you can play your favorite music from any smartphones, tablets or even laptops including iPod or iPhone on Bluetooth-enabled speaker easily.

### 12W sound output power

Rich bass radiators with 12W output enable small speakers to reproduce bass frequencies more effectively without having to increase their size. So better bass with less space!
