Highlights

14.2 mm speaker drivers

Quality 14.2 mm speaker drivers with neodymium magnet delivers rich bass and clear sound.

Designed for comfort

The design is based on ear geometry for comfortable wear and a snug fit for everyone.

Flexi-Grip

A soft, flexible part that connects the housing and the cable protects the cable connection from damage, even if bended heavily.

Neodymium magnets

Neodymium is the best material for producing a strong magnetic field for greater sensitivity in a voice coil, providing a better bass response and higher overall sound quality.
