Highlights

Explosive beats

With its 1.5-inch full-range front firing speaker driver and large twin bass radiators at the sides of the speaker for extra bass boost and extension, the ShoqBox SB300 packs power with impressive precision.

Blazing lights

Step into the light and feel the power of pounding beats and blazing lights. Multiple colors pulse to the rhythm of the beat, bringing your music to life and adding another dimension to the party. Or if you'd rather dance in the dark, that's fine too - just flip a switch and it's lights out.

Outdoor toughness

Built durable and tough enough for any adventure. Take it to the streets or into the wilderness. This speaker can handle it. Meeting strict IPX7 standards for water resistance you can even take it underwater, up to 1-meter deep for 30 minutes. And if you drop the speaker while dropping the beat, don't worry, it's shockproof.

Built-in rechargeable battery

Play music out loud - anytime, anywhere. The built-in rechargeable battery lets you enjoy your personal music without the fuss of entangled power cords and the inconvenient search for an electrical outlet. Enjoy great music with the freedom of portability now.

Bluetooth wireless

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favorite music, sound from video or game wireless on this speaker easily.

Hands-free calls

With its built-in microphone, this speaker also works as a speaker phone. When a call comes in, the music is put on pause and you can talk via the speaker. Call for a business meeting. Or, call your friend from a party. Either way, it works great.
