- **Temperature range (storage):** -20°C to 60°C

### Power

- **Power consumption:** (System on and battery charging) 12 W
- **Operating time on battery:** <1 hr
- **Battery LED indicator:** Charging - Flashing
- **Power LED indicator:** Operation - Blue
- **Power mode supported:** AC powered, Battery powered

9FF2CME/05

## Product highlights

### High Pixel Density Display

The very best high-density screen shows off your treasured photos with the same 'real life' rich detail and vibrant colours as high-quality prints.

### Rich, vibrant colours

Full colour display brings out the best in your photos with vibrant, real-life colours by displaying the same full range of colours found in professionally printed photos.

### Quality design and materials

High-quality design and exquisite materials include a solid stylish stand, designer frame and detailed finishing that convey an impression of value and refined taste, adding lustre to the photos displayed in PhotoFrame.

### Auto orientation

Automatic landscape/portrait recognition employs a sensor that recognises PhotoFrame orientation and displays each photo in its proper mode.

### Multiple viewing modes

Flexible display modes give you the freedom to display your photos one image at a time in thumbnail mode for quick, easy searches, or to create a slideshow of your most treasured photos.

### Memory Card Manager

Memory-Card Manager is a set of two built-in memory card readers and featured software for displaying, editing, storing and organising your memory card photos directly in one, hassle-free step - all without a PC.

### Smart Album

Smart Album allows you to create and manage albums, as well as set up and adjust transition effects for your photo slideshows.

### PhotoEffect Wizard

The PhotoEffect Wizard is an easy-to-use feature that allows you to rotate, zoom in, crop and even adjust photo colour tones to black and white or sepia within PhotoFrame itself.

### Easy USB connectivity

A USB connector is built into the device for easy and quick downloading of photos from a PC.

### Runs on built-in battery or AC

AC and onboard battery power give you the choice of operating your PhotoFrame on standard AC power or cordlessly with the onboard rechargeable battery.

### SmartPower

A timer turns PhotoFrame on and off at the times you choose, reducing energy consumption for the sake of our environment and saving up to one third of your PhotoFrame energy costs.
