PHILIPS
sense and simplicity

Highlights

Universal Plug & Play

Universal Plug & Play is an industry standard technology that lets you connect to any Universal Plug & Play enabled device to receive or transmit music. Your Wireless Music Center utilizes Universal Plug & Play to ensure an easy and standard way to connect to other Universal Plug & Play enabled devices. You can easily connect your Wireless Music Center to other media devices to receive or to transfer content.

80GB hard disk/1500CDs

The 80GB hard disk provides a very large capacity for you to store your digital audio files, easily holding up to 1500 audio CDs. Space saving, smart audio collection management, easy access and all in one place.

Music Broadcast - Party mode!

Be your own DJ at your home party and simultaneously broadcast your favorite dance music from the Wireless Music Center to all Wireless Music Stations installed in various parts of your home. Great for parties!

Music Follows Me

Music follows Me feature allows you to bring your favorite music from room to room in your house without having to restart navigation and playback of that particular track. By simply pressing a button, your favorite song will follow you anywhere you go in your house.
