Enjoy music wherever you go

Bring new life to your cassette tapes with this simple and portable sound system. DAB radio support and multi-type CD playback let you get the most out of new music and your old favourites

The ultimate listening experience

- DAB+, DAB and FM for full radio experience
- Play CD, CD-R and CD-RW discs
- Autostop cassette deck

Easy to use

- 20-track CD programmable
- CD Shuffle/Repeat for personalised music enjoyment
- Audio-in for easy portable music playback

Rich and clear sound

- Dynamic Bass Boost for deep and dramatic sound

PHILIPS

Highlights

DAB+, DAB and FM

DAB+/DAB (Digital Audio Broadcasting) digital radio is, on top of FM analogue transmission, a new way of broadcasting radio via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in clear and crackle-free sound quality. The technology allows the receiver to lock on to the strongest signal it can find. With DAB+ or DAB digital stations there are no frequencies to remember, and sets are tuned by station name, so there is no retuning on the move.

Autostop cassette deck

Autostop cassette deck

Dynamic Bass Boost

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost

bass levels, so you can enjoy consistent sound even when you turn down the volume.

CD Shuffle/Repeat

The "Shuffle/Repeat" function helps you to get rid of the boredom of hearing your music played in the same order all the time. After loading your favourite songs to the player, all you have to do is to select one of the modes - "Shuffle" or "Repeat" for your tunes to be played in different modes order. Enjoy the different and unique music experience every time you hook up to your player.

AUDIO-IN (3.5 mm)

Make one easy connection and enjoy all your music from portable devices and computers. Simply plug your device into the AUDIO-IN (3.5 mm) port on your Philips set. With computers, the connection is typically made from the headset output. Once linked, you can enjoy your entire music collection directly, on a set of superior speakers. Philips simply delivers better sound.

Specifications

Audio Playback

- Loader Type: Top
- Playback Media: CD, CD-R, CD-RW
- Disc Playback Modes: Fast Forward/Reverse, Next/Previous Track Search, Repeat Play, Shuffle Play
- Programmable Tracks: 20
