# Highlights

## Our packaging are small

We make our packaging as small as possible to minimize materials used in production as well as fuel during transportation.

## Keep time with fun clocks

Switch to the clock mode when you don't need to view photos. Instantly, your PhotoFrame become a clock.

## Automatic slideshow start up

Slideshow of photos starts automatically once you insert the memory card.

## imagen Pro for vibrant colors

The unique Philips imagen enhancement technology automatically analyzes your photos to correct color and adjust for optimal contrast. imagen Pro is a more advanced image enhancement which includes the 3 essential elements from imagen to have more color accuracy, color depth and smart contrast. On top of these, imagen Pro offers enhanced skin color, sharper images and flicker-free photo viewing which is very important for still pictures.

## RadiantColor

RadiantColor is an exclusive Philips technology for displaying smaller photos in the optimal 4:3 ratio by extending the color on the edges of a less-than-full-screen photo to the sides of the screen, eliminating black bars and aspect ratio distortion.
