### Superb performance in a compact design

- Dynamic Bass Boost electronically enhances the low tones
- Super anti-shock protection for smooth music enjoyment
- 2-band parametric equalizer with 8 presets
- Audio out for amplifier addition
- Built-in 45W x 4 amplifier for excellent sound quality

### Design that blends into your car

- Diffused indicating light for easy CD insertion
- High contrast LCD for perfect viewing
- Browse by folder or song for instant search or quick access
- Detachable front panel and blackout for anti-theft security

# PHILIPS

# Highlights

## DBB Dynamic Bass Boost

Activate the Dynamic Bass Boost (DBB), and the low-end bass frequencies are electronically enhanced to achieve consistent sound reproduction, especially when the speaker volume is set at a low level. You hear impressive bass at all times.

## Diffused indicating light

Find difficulty inserting a CD into your car audio in the dark? With the innovative design from Philips, you will have a clear guide with lights spreading around the disc opening to help you insert a CD faster and easier.

## High contrast LCD High contrast LCD

## Browse by folder or song

This function allows you to find a track or album much faster by letting you browse through songs and

folders, which are the usual contents of USB/SDHC devices. With the dedicated folder/song button, only three simple steps are needed to make a search – press folder/song, rotate the volume knob and push to select. This simple process lets you search through your music quickly and easily, letting you to focus on your driving.

## USB Direct for MP3/WMA music

Simply plug in your device to the USB port on your Philips Hi-Fi system. Your digital music will be played directly from the device. Now you can share your favorite moments with family and friends.

## Detachable front panel

Detachable front panel and blackout for anti-theft security
