Highlights

TV Remote

The TV remote is particularly easy to use with large buttons for channel selection and volume. It is simply the best replacement for your broken or lost TV remote control.

Fast key recognition

Fast key recognition helps to quickly and easily correct keys that are not working after installing the brand of your equipment on your remote. Just press the key for 5 sec while pointing the remote at your device, and once the device reacts you have fixed the key.

Ergonomic design

The smooth rounded shape fits perfectly in your hand for natural, balanced operation. It looks great too!

Easy to use grouped functions

Easily grouped functions allows you to easily recognize the buttons you need to control a specific audio video device. All functions of the device are grouped together on the remote. Moreover the top part of the remote is made up of different colour parts (black, silver, aluminum, ...) as well as different key finishings (black, silver, mat, glossy, ...) to quickly identify which keys go together to control a specific audio video device.
