Highlights

Extra wide soundstage

These portable speakers create an extra wide stereo soundstage when they are placed apart, so that each musical instrument appears to occupy a different physical space. The sound is more 3-dimensional and realistic.

Universal 3.5mm headphone jack

Plug and play with any of your mobile devices that have a 3.5mm headphone jack – iPod, iPhone, GoGear, MP3 players, laptops, netbooks, music phones and more.

Lightweight, portable design

The durable, lightweight material and design mean you can carry the speakers with you wherever you go.

Plug & play - no batteries

Passive speakers are powered by your mobile device itself, so without batteries they're even smaller and lighter – pick them up and take them anywhere you want to enjoy your music out loud.

Two drivers

These speakers feature two drivers, delivering surprisingly clear and powerful sound from a small space.
