- Up to 16 hours of talk time

### Eco-conscious product

- Up to 95% reduction of emitted radiation in charging mode
- Low power consumption: < 0.65 W in standby mode

**PHILIPS**

# Highlights

## Advanced sound testing

We test the sound quality of our DECT phones the same way as high-end headphone manufacturers do. Using an advanced ear simulator, we can accurately re-create the way people actually hear. This helps our acoustic engineers to measure and fine-tune things like frequency response, distortion and overall hearing perception, to create perfect voice reproduction for both handset and hands-free modes.

## Parametric Equaliser

Our telephones use parametric equalisation in the digital sound processing to fine tune the sound response back to the intended linear frequency response curve, delivering sound that is pure and clear, for each conversation.

## Acoustic echo cancellation

No more of those annoying echoes when you are talking on the phone. With our acoustic echo cancellation, you always get a clear, undisturbed connection.

## Up to 15 min. recording

With up to 15 minutes recording time, you'll never miss an important message.

## Handset speakerphone

Hands-free mode uses a built-in loudspeaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

## 4.1 cm (1.6") dot-matrix display

Easy to read, 4.1 cm (1.6") dot-matrix display

## Easy setup

Ultimate convenience through easy set up. Simplified installation - Plug and Play product

## 50-name phone book

Always have the phone numbers of your loved ones available: Save up to 50 names in your phonebook.

## Optimised antenna layout

Our optimised antenna layout ensures strong and stable reception, even in areas of the house where cordless transmission is difficult. Now you can take a call wherever you are in the house, and enjoy a long, uninterrupted conversation even as you walk around.

# Specifications

## Sound

- Volume control on handset
- Ringtones on handset: 10 polyphonic

## Picture/Display

- Display size: 4.1 cm/1.6"
- Backlight: Yes
- Backlight colour: Amber
