

Philips  
Cordless telephone

DECT5271B

## Welcome to the color world

The rich color screen brings the 5 series to life by adding another dimension to making a call. Color not only facilitates navigation in the icon menu, but also adds more depth to associated features.

### Colors that bring your phone to life

- Backlit LCD display
- Selectable wallpapers
- Icon-driven color menu

### Clear calls around the house

- Polyphonic ringtones for a more natural and realistic sound
- Speakerphone - Talk handsfree
- Virtually interference free

### Never miss a call

- 15-minute recording time
- Digital answering machine

# Highlights

## Polyphonic ringtones

A polyphonic ringtone means that the phone can play many tones simultaneously, so that an accurate musical performance is possible, and when played through the phone's speaker these polyphonic ringtones sound like real music.

## Backlit LCD display

Backlit LCD display

## Selectable wallpapers

An illustration is worth more than a thousand words. Scroll through the selection of images integrated into the handset. Select the one that best suits your mood of the day and have it displayed as a background on your screen.

## 15-minute recording time

Records up to 15 minutes of incoming messages

## Icon-driven color menu

All functions are grouped into several menu items that are symbolized by a colored icon. This facilitates navigation and use of the phone.

## Speakerphone - Talk handsfree

Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or take notes during a call.

## Virtually interference free

Thanks to an advanced digital technology, calls are undisturbed by interferences from other devices.

## Digital answering machine

With a digital answering machine, you'll never miss a call or message.
