PHILIPS
sense and simplicity

Specifications

Video Capturing

- **Frame rate:** 30 fps
- **Image sensor type:** CMOS

- **Video resolution:** CIF
- **Max snapshot res. interpolated:** VGA (640x480)

Product highlights

VGA resolution

VGA (640 x 480) means around 300,000 pixels are used to create the total image. This VGA resolution ensures sharp images for use in documents, webpages and e-mails.

30 frames per second video

Sit back and enjoy superior viewing with 30 frames per second video. This gives you smoother video images and a better all-round video-chatting experience.

VLounge software

Software for capturing, managing and archiving snapshots and video clips in a very convenient way. With just a couple of mouse clicks you will be able to create and send Video mails. This software package provides all you need to take full advantage of your Philips PC Camera.

VLounge QuickLaunch button

To start up the VLounge application, simply press the QuickLaunch button

Works with imaging software

Capture VGA-quality (640x480) snapshots and flicker-free video clips for video mails. This PC Camera works with all available imaging software such as Arcsoft's Videolmpression, Adobe Photoshop ... and many more...

XP Plug & Play

If you're a Windows XP end-user, you do not need to install product drivers before starting to use this PC peripheral / product.

Rotating lens

Rotating lens for perfect aiming and natural images. You can get the right camera angle quickly and easily without having to put things underneath it to change the tilt.

Works with all IM services

Add video to Yahoo!, MSN and AOL Messenger. This PC Camera also works with Windows Messenger and NetMeeting.

External microphone included

With a separate external microphone, you have the freedom to place it where it best picks up your voice for relaxed on-line video chatting.
