Highlights

Free Internet radio stations

Streamium comes with thousands of free Internet radio stations. Now you can stay abreast of all kinds of music worldwide. Connect your Streamium to the Internet and listen to your favourite online programmes on your audio system without having to turn on your PC.

Wireless music playback

Free your entire music collection from your PC and play it back through your audio system with the Streamium Network music player! With the UPnP connection that lets you connect to any Universal Plug and Play-enabled device to receive or transmit music; the Streamium enables you to access, select and search your music collection in your PC. Just use the remote control and choose your songs through the Streamium and play it back through an audio system. Meanwhile you can enjoy album art displayed on the colourful LCD screen. Experience listening to your favourite music wirelessly and effortlessly.

FullSound™

Philips' innovative FullSound technology faithfully restores sonic details to compressed MP3 music, dramatically enriching and enhancing it, so you can experience CD music without any distortion. Based on an audio post-processing algorithm, FullSound combines Philips' renowned expertise in music reproduction with the power of the latest generation Digital Signal Processor (DSP). The result is fuller bass with more depth and impact, boosted voice and instrument clarity, and rich detail. Rediscover your compressed MP3 music in true-to-life sound that will touch your soul and move your feet.
