Highlights

Accelerate up to 550MB/s

Philips ultra speed SSD can reach sequential read speeds up to 550MB/s* and will definitely cut the annoying waiting time! Get the speed optimized for multitasking on your laptop or computer. It improves the overall response time for loading and running, games, videos and photos.

960 GB memory capacity

Simply connect the 2.5" SATA III SSD to the motherboard and power supply and add the extra 960GB storage capacity with fast performance.

Ideal for 4K UHD video editing

Enables you to effortlessly load the demanding applications for 4K UHD video editing, professional gaming and high resolution images.

Bring life to your old system

When your old computer is getting slower, Philips SSD is an cost effective solution to revive the system instead of replacing the computer. It speeds up the computer boot ups and application loads time.

Good things are made to last

Unlike the traditional hard disk, Philips solid state drive is based on flash memory, and therefore quiet and less susceptible to malfunction. It has no moving parts and results in higher durability. Philips engineer to offer reliable quality.

Low power consumption

Compared to traditional HDDs, power consumption is much lower. It helps the battery of your notebook to last longer.

High productivity

Since the solid state drive does not require file indexing, files can be found in a flash. A great help to increase productivity.

Universal compatibility

For use in desktops and notebooks that support 2.5" SATA III. Designed to work with Windows, Mac and Linux without the need of adaptors.
