## Install battery

## Caution

- Risk of explosion! Keep batteries away from heat, sunshine or fire. Never discard batteries in fire. Danger of explosion if battery is incorrectly replaced. Replace only
- with the same or equivalent type. The battery contains chemical substances, so it should be disposed of properly. Keep children away from the battery.
- Perchlorate Material special handling may apply. See www.dtsc ca.gov/hazardouswaste/perchlorate

## Note

You can only use AC power as power supply. The pre-installed lithium CR2032 battery can only back up time and alarm When power is disconnected, the display backlight is off.

### For first-time use:

Remove the protective tab to activate the battery To replace the battery: B

## Connect power (C)

## Caution

Risk of product damage! Ensure that the power voltage correspond to the voltage printed on the back or underside of the clock radio. Risk of electric shock! When you unplug the AC adapter, always pu the plug from the socket. Never pull the cord.

### Set clock

- 1 In standby mode, press and hold **SET** for two seconds to activate clock setting mode. → [12H] or [24H] is displayed.
- 2 Press TUNING +/- or ▲ / ▼ repeatedly to select 12/24 hour format
- 3 Press **SET** again to confirm. → The hour digits begin to blink
- 4 Repeat Steps 2 to 3 to set the hour and minute.

## - Note

• If clock is not manually set, when iPod/iPhone is connected, the clock radio synchronizes time from the iPod/iPhone automatically.

### Turn on

- Press ①. → The clock radio switches to the last selected source.

### Switch to standby mode

Press  $\oplus$  to switch the clock radio to standby mode. → The clock (if set) appears on the display panel.

#### Play from iPod/iPhone 4

The clock radio supports these iPod and iPhone models:

## dia from iPad/iPhar

e through

### Snooze alarm

#### When alarm sounds, press SNOOZE

→ The alarm snoozes and repeats ringing five minutes later To adjust alarm interval (in minutes), press SNOOZE repeatedly.

### Set sleep timer

- This clock radio can switch to standby mode automatically after a preset period
- Press SLEEP repeatedly to select the sleep timer period (in minutes). ➡ When the sleep timer is activated, zZ appears. To deactivate the sleep timer, press SLEEP repeatedly until [OFF] (off)
- appears.

$$15 \rightarrow 30 \rightarrow 60 \rightarrow 90 \rightarrow 120$$

### Play audio from an external device

You can listen to audio from an external device through this clock

- 1 Connect the audio cable to:
- the AUX IN socket.
- the AUDIO OUT sockets of an external device 2 Press SOURCE repeatedly to select AUX source.
- **3** Start to play the external device (see the user manual of this device).

## Adjust display brightness

Press BRIGHTNESS repeatedly to select different brightness levels.

#### 8 Troubleshooting

## Warning

Never remove the casing of this apparatus.

To keep the warranty valid, never try to repair the system yourself. If you encounter problems when using this apparatus, check the following points before requesting service. If the problem remains unsolved, go to the Philips web site (www.philips.com/welcome). When you contact Philips, ensure that the apparatus is nearby and the model number and serial number are available

No power

Ensure that the AC power plug of the clock radio is connected properly

- Ensure that there is power at the AC outlet
- No response from the clock radio Disconnect and reconnect the AC power plug, then turn on

- iPhone 3G
- iPhone

### Listen to audio from iPod/iPhone

- Press SOURCE repeatedly to select iPod/iPhone mode.
- 2 Place the iPod/iPhone in the dock. (D)
- **3** Start to play audio from the iPod/iPhone

## Remove the iPod/iPhone (E)

Pull the iPod/iPhone out of the dock

## Charge the iPod/iPhone

When the clock radio is connected to power, the docked iPod/iPhone starts charging

Press and hold AL1/AL2 for two seconds to activate alarm setting mode.

In standby mode, you can set two alarms to ring at different time.

- → The hour digits and alarm icon begin to blink.
- Press TUNING +/- or ▲ / ▼ to set the hour

Make sure that you have set the clock correctly.

- 3 Press AL1/AL2 to confirm.
- → The minute digits begin to blink.

4 Repeat steps 2 to 3 to set the minute and alarm volume. G

### Select alarm source

Adjust AL1/2 iPhone ·RADIO ·BUZZ control to select alarm source for both alarms

## Note

- When alarm time comes, the selected radio, buzzer, or iPod/iPhone turns on.
- You can only select the same alarm source for Alarm 1/ Alarm2.
- If iPhone is selected as alarm source, while no iPod/iPhone i connected, the clock radio switches to buzzer source instead

#### Activate/deactivate alarm timer

- Press AL1/AL2 to view alarm settings.
- 2 Press AL1/AL2 again to activate or deactivate the alarm timer. → ↓ I or ↓ 2 appears if alarm timer is on and disappears if it is off.
  - To stop the ringing alarm, press the corresponding AL1/AL2
  - The alarm repeats ringing for the next day.

the clock radio agair

#### Poor radio reception

- Increase the distance between the unit and your TV or VCR
- Fully extend the FM antenna

#### Alarm does not work

Set the clock/alarm correctly.

#### Clock/alarm setting erased

- Power has been interrupted or the power plug has been disconnected.
- Reset the clock/alarm

#### 9 Notice

Any changes or modifications made to this device that are not expressly approved by Philips Consumer Lifestyle may void the user's authority to operate the equipment

This product complies with the radio interference requirements of the European Community.

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

Please inform yourself about the local separate collection system for electrical and electronic products

Please act according to your local rules and do not dispose of your old products with your normal household waste. Correct disposal of your old product helps to prevent potential negative consequences for the environment and human health.

Your product contains batteries covered by the European Directive 2006/66/EC, which cannot be disposed with normal household waste.Please inform yourself about the local rules on separate collection of batteries because correct disposal helps to prevent negative consequences for the environmental and human health.

#### Environmental information

All unnecessary packaging has been omitted. We have tried to make the packaging easy to separate into three materials: cardboard (box), polystyrene foam (buffer) and polyethylene (bags, protective foam sheet.)

Your system consists of materials which can be recycled and reused if disassembled by a specialized company. Please observe the local regulations regarding the disposal of packaging materials, exhausted batteries and old equipment.
