Dimensions

- Weight: 0.34 kg
- Temperature range (operation): 0°C to 40°C
- Temperature range (storage): -10°C to 60°C
- Set dimensions with stand (W x H x D): 222.6 x 182.2 x 33.2 mm

Power

- Power supply: 100-240VAC, 50/60Hz
- Power source: DC output 9V, 2A
- Power consumption: (System on) 3.8 W
- Power mode supported: AC powered

Outer Carton

- GTIN: 1 87 12581 52791 1
- Number of consumer packagings: 2
- Gross weight: 2.593 kg
- Outer carton (L x W x H): 26.1 x 20.3 x 22.6 cm
- Nett weight: 1.808 kg
- Tare weight: 0.785 kg

Packaging dimensions

- EAN: 87 12581 52791 4
- Number of products included: 1
- Packaging type: Carton
- Packaging dimensions (W x H x D): 21.2 x 25 x 9.5 cm
- Gross weight: 1.176 kg
- Nett weight: 0.904 kg
- Tare weight: 0.272 kg

Highlights

imagen Pro for vibrant colors

The unique Philips imagen enhancement technology automatically analyzes your photos to correct color and adjust for optimal contrast. imagen Pro is a more advanced image enhancement which includes the 3 essential elements from imagen to have more color accuracy, color depth and smart contrast. On top of these, imagen Pro offers enhanced skin color, sharper images and flicker-free photo viewing which is very important for still pictures.

4:3 perfect frame ratio

Philips digital PhotoFrame ensures your photo to be displayed in 4:3 ratio for the best viewing experience.

Automatic slideshow

Automatic slideshows start from any USB drive or memory card for all those moments you don't want to spend time copying photos to your PhotoFrame.

Border Touch Control

The touch sensitive controls of the PhotoFrame are instantly illuminated during operations, making it easy to scroll through your photos, video clips and music. In photo viewing mode, you can slide your finger along the horizontal touch border enabling you to select a new photo easily from the thumbnails shown on screen.

Photo transfer via Bluetooth

We know you like to take photos on your mobile phone. Now you can transfer these photos to your Philips digital PhotoFrame via Bluetooth without any additional dongles or cables.

RadiantColor

RadiantColor is an exclusive Philips technology for displaying smaller photos in the optimal 4:3 ratio by extending the color on the edges of a less-than-full-screen photo to the sides of the screen, eliminating black bars and aspect ratio distortion.

Smart Power Pro

Smart Power Pro is a sensor that turns PhotoFrame on and off by detecting ambient lighting condition reducing energy consumption for the sake of our environment saving up to one third of your PhotoFrame energy costs. The best news is that this is all done automatically!

Eco-friendly Photoframe

Philips PhotoFrame are designed and produced according to our EcoDesign principles aimed at minimizing overall environmental impact, through lower power consumption, removal of hazardous substances, lower weight, more efficient packaging and better recyclability.
