sense and simplicity

Highlights

Watch free-to-air TV broadcast

Watch free-to-air TV broadcast in real-time

18cm/7" swivel color LCD panel

7" swivel color LCD panel for improved viewing flexibility

DivX Certified

With DivX® support, you are able to enjoy DivX® encoded videos. The DivX media

format is an MPEG4-based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW, and DVD recordable discs.

MP3-CD, CD and CD-RW playback

MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. A single CD can store up to 10 hours of music.

USB connection

Simply plug in your portable USB device to the USB connector on your Philips portable DVD player and playback your digital videos, music or photos directly. Now you can share your favorite moments with family and friends.

Specifications
