Highlights

3.8x5.1cm (1.5"x2") TFT screen

Conveniently call up and view favorite channel icons

Favorite channel icons

Enjoy viewing favorite channel logos onscreen.

Label your own buttons

Name the channel yourself or use one of the favorite icons

Kid safe

Allows children to choose and watch only selected channels. Locks them out of essential programming functions.

Subtitle, zoom, repeat buttons

Enjoy complete access to your DVD features: view subtitles, and repeat scenes at the touch of a button.

Chapter +/- and chapter scan

Easily locate and scan the succeeding or preceding chapters on a disc at the touch of a button.

Guide, info/select and scroll

Enjoy all your satellite system has to offer. Features allow you to access on-screen satellite channel guide, info, select/OK, quit, and scroll to easily navigate through the guide.

Easy keypad design

Convenient ergonomic access to all features and functions of the remote control makes it easy to access and operate.

Learning functionality

Learning functionality refers to the process through which a remote control captures and stores infrared signals from other remotes for later use. When device codes are not included in the on-board database, they can always be learned from the original remote, simply by pointing to it.

One-touch convenience

One-touch control allows you to perform multiple commands with one press of a button via a macro. A macro combines a string of pre-programmed commands under one single button. Therefore, it simply takes one button press to execute a series of functions.
